Associate in Medical Office Management-0

If *No*, insert "Section 3-1-303(a)" in parentheses and explain:

(Section 3-1-303(a)): Although there was one successful contact for graduate from the Medical Office Management program, the student was not placed in field as attested by the institution. The student states that she is a freelance home health aid that does not work for any agency but takes on patients through word of mouth, family, and friends. She also stated that she had been doing this for many years before obtaining her degree and resumed this position post graduation in September 2013. Her primary skills include companionship, cooking, light housekeeping, transportation to physician appointments, and help with activities of daily living (ADL's). The student stated that she does not feel that the training she received from Westwood's Medical Office Management degree has helped her prepare for this position. She previously obtained her bachelor of Healthcare Management from Westwood. Upon team review, there is not a match for job description, title, or skills utilized allowing for an in-field placement of the graduate. The Medical Office Management program specifically states in the catalog, and through review of curriculum offered, that this degree is designed to manage medical office operations and to teach and train students the skills necessary to work with doctors and their patients in a medical office environment. Core curriculum classes include accounting, medical insurance and administrative procedures, principles of human resource management, and advanced medical office management, to name a few. The core curriculum involves over 70% management related topics and does not relate the skill set to afford a placement as in-field in regards to a home health aid position.

The course/program content and delivery format is developed by its parent company, Alta Colleges, Inc., central administration curriculum team whose members include master's prepared personnel with over 40 years of combined experience in instructional design, including 25 years in online development. The team collaborates with subject-matter experts from each content area. Ultimately, administration and faculty, review, give feedback, and make recommendations to ensure curricula are aligned with and meeting students' expectations and fulfilling its campus mission. A memorandum documents this system.

H.18 Describe how the courses provide opportunities for interaction between faculty and students.

The following strategies are used to facilitate online faculty and student interaction: an "Announcements" feature for all courses that provides directives through instructor postings; a threaded discussion forum in which students are required to post statements and peer responses for which they receive instructor feedback; and an assignment feature with a grade book link that provides a dialogue between an instructor and individual student. In addition, students are encouraged to contact their instructors by email or telephone if an individual or personal response is needed-the instructor's contact information is accessible through the course's home page. Access to and observation of scheduled online courses and 98% of the responses to a student questionnaire given while the team was on-site verify these interactions.

Are these opportunities sufficient and appropriate?

H.19 Describe how the courses provide opportunities for interaction among students.

Students interact with peers through threaded discussion forums that require direct responses to peers' postings; group project assignments that require dialogue among group members using email, telecommunications, or scheduled face-to-face meetings as appropriate; and an email utility feature in each course that provides the ability to send group or individuals emails to peers. Access to

and observation of scheduled online courses and 97% of the responses to a student questionnaire given while the team was on-site verify these interactions.

This login verifies the student is "the student who enrolled at the campus." Page 71 of the 2014 Academic Catalog Westwood College-Online, Volume 6, NO. 1 explicitly outlines the "Prohibited Use of Information Technology Resources" for students; students are prompted to review this outline during the online orientation.

Is this method adequate?

☒ Yes ☐ No

H.23 Does the institution employ academically and experientially credentialed faculty to teach online courses?

☒ Yes ☐ No

H.24 Describe the institutions learning management system.

Students participate in activities which familiarize them with learning platform navigation, technical support access, student resource information and access, and student success lessons. The virtual workshop requires students to complete quizzes and graded assignments throughout the process. In response to a questionnaire given by the team while on-site, 92% of the student respondents confirmed they had participated in the orientation. A majority of students confirmed it helped them to navigate the system.

GENERAL COMMENTS:

To obtain a robust sample of student and faculty perspectives who are engaged in an exclusively online, off-site environment, students and faculty were invited via email to participate in an anonymous survey through SurveyMonkey®. Within a 24-hour period while the team was on-site, nearly 500 students and over 100 faculty members responded. Student responses to queries about orientation, reviewing syllabi and objectives, interactions

with faculty and peers, and access to student services, resulted in a 97% positive response rating. Faculty member responses to queries about interactions with students, teaching approaches, administrative support, and use of community resources, resulted in a 98% positive response rating. Questions were objective with "yes/no" responses, and space was provided for brief comments. The data collected was deleted immediately following a review of the analyses generated by the site and the comments. The reliability of the surveys is comparable to on-site classroom visits, faculty meetings, and individual interviews. The validity of the responses is no greater than providing a sample of student and faculty perspectives about their experiences.

SUMMARY

The institution is not in compliance with the *Accreditation Criteria* in the following areas:

Number	Citation	Summary Statement
1	3-1-303(a)	The school does not keep adequate records as it relates to accreditation and licensure or the CAR, specifically regarding placement classifications, attestations, and waiver verification (pages 8-11, 31-32, 37, 41, 45, 49, 53-4, 58, and 67).
2	3-1-303(e), 3-1-701, and Appendix C	The catalog does not contain an explanation of the grading system that is consistent with the one that appears on the transcript (page 11 and 22).

RECOMMENDATIONS

The evaluation team offers the following recommendations for the institution's consideration *(These recommendations are not included in the report seen by the Council)*:

Publications

- Combine multiple addenda into one document with appropriate date headings for changes, to avoid accidental exclusion of separate sections.

Library

- Renew the lapsed subscription to the EBSCO Master Search database to enhance student research resources in the undergraduate and graduate business programs.

Computer Aided Design/Architectural Drafting

- Faculty suggested an interview process for students coming into the Computer Aided Design/Architectural Drafting program. This approach does not need to be stringent, such as a portfolio requirement but more of a casual conversation an inquiry into the individual's ideas on the industry and what is involved.

INTRODUCTION

Westwood College-Online is one of sixteen campuses located in Colorado, Illinois, Georgia, and Virginia. Westwood College is a wholly-owned entity of Wesgray Corporation which is wholly-owned subsidiary of Westwood College, Inc.

The Westwood College Online campus was approved in August 2008 as an additional location of Westwood College Online, Los Angeles, California and the first term was in May 2009. The Online campus offers its courses and programs from Broomfield, Colorado. This campus is located in a business district.

Based on the most recent data available, the Campus Effectiveness Plan reports the student population is 53% female and 47% male; and the average age is 33.34 years. Of those reporting it on the survey form provided when the most recent data was collected, the ethnicity of the student population was 21% African American, 46% Caucasian, 3% Hispanic, 1% Native American, 2% Asian/Pacific Islands, and 27% of the students not reporting their ethnicity.

It is important to note that all Westwood College campuses converted to a curriculum called the Career Advantage Program (CAP) in 2012. All programs were reviewed by system curriculum committees and modified to be more efficiently delivered. A major change resulting from the implementation of the CAP curriculum is that most courses were granting 3.5 quarter credits to 4.5 quarter credits. The CAP curriculum model is an effort to ensure Westwood College is offering the most updated programs as possible to better prepare their graduates for employment. In addition, this model closely resembles the standard semester credit model and allows for the possibility of easier transferability to institutions external to Westwood College. Due to this revision the following bachelor programs are in teach out mode with expected close out October 2014. There are 7 bachelor's degree programs; Management (1 student), Computer Network Management (1 student), Criminal Justice (2 students), Game Art (2 students), Information Systems Security (1 student), Software Development (1 student), and Visual Communications (1 student).

Associate in Medical Office Management-0

If *No*, insert "Section 3-1-303(a)" in parentheses and explain:

(Section 3-1-303(a)): Although there was one successful contact for graduate from the Medical Office Management program, the student was not placed in field as attested by the institution. The student states that she is a freelance home health aid that does not work for any agency but takes on patients through word of mouth, family, and friends. She also stated that she had been doing this for many years before obtaining her degree and resumed this position post graduation in September 2013. Her primary skills include companionship, cooking, light housekeeping, transportation to physician appointments, and help with activities of daily living (ADL's). The student stated that she does not feel that the training she received from Westwood's Medical Office Management degree has helped her prepare for this position. She previously obtained her bachelor of Healthcare Management from Westwood. Upon team review, there is not a match for job description, title, or skills utilized allowing for an in-field placement of the graduate. The Medical Office Management program specifically states in the catalog, and through review of curriculum offered, that this degree is designed to manage medical office operations and to teach and train students the skills necessary to work with doctors and their patients in a medical office environment. Core curriculum classes include accounting, medical insurance and administrative procedures, principles of human resource management, and advanced medical office management, to name a few. The core curriculum involves over 70% management related topics and does not relate the skill set to afford a placement as in-field in regards to a home health aid position.

H.18 Describe how the courses provide opportunities for interaction between faculty and students.

The following strategies are used to facilitate online faculty and student interaction: an "Announcements" feature for all courses that provides directives through instructor postings; a threaded discussion forum in which students are required to post statements and peer responses for which they receive instructor feedback; and an assignment feature with a grade book link that provides a dialogue between an instructor and individual student. In addition, students are encouraged to contact their instructors by email or telephone if an individual or personal response is needed-the instructor's contact information is accessible through the course's home page. Access to and observation of scheduled online courses and 98% of the responses to a student questionnaire given while the team was on-site verify these interactions.

Students participate in activities which familiarize them with learning platform navigation, technical support access, student resource information and access, and student success lessons. The virtual workshop requires students to complete quizzes and graded assignments throughout the process. In response to a questionnaire given by the team while on-site, 92% of the student respondents confirmed they had participated in the orientation. GENERAL COMMENTS:

To obtain a robust sample of student and faculty perspectives who are engaged in an exclusively online, off-site environment, students and faculty were invited via email to participate in an anonymous survey through SurveyMonkey®. Within a 24-hour period while the team was on-site, nearly 500 students and over 100 faculty members responded. Student responses to queries about orientation, reviewing syllabi and objectives, interactions

with faculty and peers, and access to student services, resulted in a 97% positive response rating. Faculty member responses to queries about interactions with students, teaching approaches, administrative support, and use of community resources, resulted in a 98% positive response rating. Questions were objective with "yes/no" responses, and space was provided for brief comments. The data collected was deleted immediately following a review of the analyses generated by the site and the comments. The reliability of the surveys is comparable to on-site classroom visits, faculty meetings, and individual interviews. The validity of the responses is no greater than providing a sample of student and faculty perspectives about their experiences.

SUMMARY

The institution is not in compliance with the *Accreditation Criteria* in the following areas:

Number	Citation	Summary Statement
1	3-1-303(a)	The school does not keep adequate records as it relates to accreditation and licensure or the CAR, specifically regarding placement classifications, attestations, and waiver verification (pages 8-11, 31-32, 37, 41, 45, 49, 53-4, 58, and 67).
2	3-1-303(e), 3-1-701, and Appendix C	The catalog does not contain an explanation of the grading system that is consistent with the one that appears on the transcript (page 11 and 22).

RECOMMENDATIONS

The evaluation team offers the following recommendations for the institution's consideration *(These recommendations are not included in the report seen by the Council)*:

Publications

- Combine multiple addenda into one document with appropriate date headings for changes, to avoid accidental exclusion of separate sections.

Library

- Renew the lapsed subscription to the EBSCO Master Search database to enhance student research resources in the undergraduate and graduate business programs.

Computer Aided Design/Architectural Drafting

- Faculty suggested an interview process for students coming into the Computer Aided Design/Architectural Drafting program. This approach does not need to be stringent, such as a portfolio requirement but more of a casual conversation an inquiry into the individual's ideas on the industry and what is involved.

INTRODUCTION

In 2002, Alta Colleges purchased the Practical School location in metropolitan Los Angeles. The campus was renamed Westwood College – South Bay and relocated to a temporary site in Long Beach. The campus moved to its current location in Torrance, California in August 2005 and was officially identified as Westwood College – South Bay shortly thereafter. Westwood College–South Bay has additional locations, Westwood College –Arlington Ballston and Westwood College –Annandale located in Virginia.

Torrance is a city incorporated in 1921 and located in the South Bay (southwestern) region of Los Angeles County, California. Torrance has 1.5 miles of shore-front beaches on the Pacific Ocean. The population of Torrance was 145,438 at the 2010 census. This residential and light high-tech industry city is known for its low crime rates as the city consistently ranks among the safest cities in Los Angeles County. Torrance is home to the U.S. headquarters of two of the three largest Japanese automakers, Toyota Motor Sales, U.S.A. (overseas office of Toyota), and American Honda Motor Company. Robinson Helicopters are designed and built in Torrance as are Honeywell's Garrett turbochargers used on automobile engines worldwide. Alcoa Fastening Systems is headquartered in Torrance, as well, producing aerospace fasteners. Pacific Sales, PC Mall and Pelican Products are among the other companies based in Torrance. These industries provide a good base for employment of Westwood – South Bay students.

Because of an increased focus on associate degree programs in 2011-2012, Westwood College started evaluating the need for changing the College's mission statement. The process began with the appointment of a committee made up of central administration, campus wide and external representation. The goal of the committee was to obtain a better understanding of students and employers' views of Westwood. The committee met to discuss findings and exchange ideas on how to transition the Westwood focus from a predominantly bachelor's degree granting academic college to a predominantly associate degree granting college, while retaining Westwood's focus on graduate employment. After forming a system wide committee to study and re-write the mission statement, it was distributed to all campuses for review. The new mission statement was approved by ACICS in December 2012 and was published in January 2013.

Demographics of Westwood – South Bay students indicate that 55% are enrolled in bachelor's degree programs, 38% in associate's degree programs, and 7% are diploma students. Most of the students at the campus are non-traditional students with an average age of 28 years of age. The mix between female and male students is nearly equal with 54% women and 46% male. The ethnicity of the student population consists of 16% African American, 5% Caucasian, 38% Hispanic, less than 1% Native American, 6% Asian-Pacific Islander, 1% other, and 33% unknown.

None of the programs at Westwood – South Bay are programmatically accredited. Although the associate's degree in Paralegal has no enrollment at the time of the team visit, the campus is willing to continue to make the program available to interested students.

SUMMARY

The institution is not in compliance with the *Accreditation Criteria* in the following areas:

<u>Number</u>	<u>Citation</u>	<u>Summary Statement</u>
1	3-1-111	The CEP does not contain baseline data for any of the five elements in the CEP (page 4).
2	3-1-602	The campus is not in compliance with the local fire and safety laws (page 18).

RECOMMENDATIONS

The evaluation team offers the following recommendations for the institution's consideration *(These recommendations are not included in the report seen by the Council)*:

MISSION:

- The student learning outcomes section of the CEP should be revised to emphasize those measurements that truly reflect what the students have learned (projects, senior seminars, portfolio assessment, capstone projects, externships, grade distribution, etc.). The current CEP includes these items along with many other issues such as curriculum development and instructional support that may influence student learning, but are not direct measurements of such.
- When revising the CEP, the campus should develop a section for the sixth area to be evaluated as indicated by criteria, graduation rates.

FACILITY:

- The team observed and experienced electrical issues affecting lighting on the 1st and 2nd floor classrooms. Interviews with administration confirmed that the 2nd floor electrical issue is recurring and action for resolution was enacted. The team also found multiple electrical outlet boxes exposed and uncovered in the learning commons area, which is perceived as a further concern for safety. It is recommended that these boxes be repaired and covered.
- There is an overall appearance of uncleanness throughout the student learning commons area; in particular, the seating furniture for students is visibly stained and appears unattractive and unsanitary.
- Audio visual technology is reported by faculty and students as barely adequate and could benefit from additional maintenance, especially for better sound quality. It is recommended that these concerns be addressed to improve the overall student experience.

BUSINESS ADMINISTRATION:

Although students are generally happy with the overall campus, they would like to see more activities common to a more traditional college campus such as a basketball team.

GRAPHIC DESIGN:

Completing the setup of the render farm to support Maya would assist in speeding up the rendering process and freeing up additional laboratory computers. If there is room, adding the old lab computers (that are being replaced) to the render farm would also help to increase the overall processing power. The campus may also want to investigate using the OUYA development kit so that students can gain some practical experience in game console development.

INTERIOR DESIGN:

- There is currently one part-time faculty member teaching for the program and a program chair who also teaches some classes. Both faculty members have earned degrees in architecture and practice primarily as architects. There are no faculty members in the program that have earned degrees in interior design, have national interior design exam qualification, or interior design professional organization appellation. It is recommended that the administration hire and retain faculty that have one or more of these qualification examples and assign interior design theory and interior design studio-based classes to these faculty for a better balance of architectural and interior design skill outcomes and a wider breath of industry perspective, understanding, and standards.

- The team observed a majority of the computers in the dedicated interior design computer laboratories are in the process of rendering and not available for other student use during classtime. Interviews with students confirmed slow computer speeds. The team recommends an action plan for technology equipment improvement for this program.

ALLIED HEALTH PROGRAMS:

- Courses including MICB 220, ICD9 CM Coding Essentials should start incorporating training for ICD-10 which is scheduled for implementation in October 2014. Information can be obtained from the Centers of Medicare and Medicaid Services at www.CMS.gov.
- Increased utilization of interactive software's, DVDs and test prep books and articles in library to enrich the allied health programs.

CONSTRUCTION MANAGEMENT:

- Monitor prerequisites very closely. One student in the Construction Management program, Ms. Rosana Chaves, took CM260 before taking CA201.
- The Construction Management program currently uses MS Project as a scheduling software. The team recommends the institution use an industry standard software such as Primavera.
- Revise the language in the catalog regarding one of the program learning outcomes for the Construction Management program. Students do not learn enough CAD skills to "create construction drawings." The team recommends the word "create" be revised to "interpret."

INTRODUCTION

ITT—Southfield opened in March 2012 with 19 students enrolled in two academic associate's degree programs. The campus now offers four academic associate degree programs and plans to graduate its first class in December 2013. Although Southfield is not a low-income area, most students are lower-income students from the Detroit area. Most students are age 25 or older, most are male, and most have not attended any postsecondary institution before.

Although the campus reported in its 2012 CAR an impressive overall retention rate of 85%, the campus has a year-to-date retention rate in the Drafting and Design associate-degree program of 49%. This is a new program and was not reported in the 2012 CAR. The campus has already developed an improvement plan for the program and included it in its current CEP.

INTRODUCTION

In 2002, Alta Colleges purchased the Practical School location in metropolitan Los Angeles. The campus was renamed Westwood College – South Bay and relocated to a temporary site in Long Beach. The campus moved to its current location in Torrance, California in August 2005 and was officially identified as Westwood College – South Bay shortly thereafter. Westwood College–South Bay has additional locations, Westwood College –Arlington Ballston and Westwood College –Annandale located in Virginia.

Torrance is a city incorporated in 1921 and located in the South Bay (southwestern) region of Los Angeles County, California. Torrance has 1.5 miles of shore-front beaches on the Pacific Ocean. The population of Torrance was 145,438 at the 2010 census. This residential and light high-tech industry city is known for its low crime rates as the city consistently ranks among the safest cities in Los Angeles County. Torrance is home to the U.S. headquarters of two of the three largest Japanese automakers, Toyota Motor Sales, U.S.A. (overseas office of Toyota), and American Honda Motor Company. Robinson Helicopters are designed and built in Torrance as are Honeywell's Garrett turbochargers used on automobile engines worldwide. Alcoa Fastening Systems is headquartered in Torrance, as well, producing aerospace fasteners. Pacific Sales, PC Mall and Pelican Products are among the other companies based in Torrance. These industries provide a good base for employment of Westwood – South Bay students.

Because of an increased focus on associate degree programs in 2011-2012, Westwood College started evaluating the need for changing the College's mission statement. The process began with the appointment of a committee made up of central administration, campus wide and external representation. The goal of the committee was to obtain a better understanding of students and employers' views of Westwood. The committee met to discuss findings and exchange ideas on how to transition the Westwood focus from a predominantly bachelor's degree granting academic college to a predominantly associate degree granting college, while retaining Westwood's focus on graduate employment. After forming a system wide committee to study and re-write the mission statement, it was distributed to all campuses for review. The new mission statement was approved by ACICS in December 2012 and was published in January 2013.

Demographics of Westwood – South Bay students indicate that 55% are enrolled in bachelor's degree programs, 38% in associate's degree programs, and 7% are diploma students. Most of the students at the campus are non-traditional students with an average age of 28 years of age. The mix between female and male students is nearly equal with 54% women and 46% male. The ethnicity of the student population consists of 16% African American, 5% Caucasian, 38% Hispanic, less than 1% Native American, 6% Asian-Pacific Islander, 1% other, and 33% unknown.

None of the programs at Westwood – South Bay are programmatically accredited. Although the associate's degree in Paralegal has no enrollment at the time of the team visit, the campus is willing to continue to make the program available to interested students.

SUMMARY

The institution is not in compliance with the *Accreditation Criteria* in the following areas:

<u>Number</u>	<u>Citation</u>	<u>Summary Statement</u>
1	3-1-111	The CEP does not contain baseline data for any of the five elements in the CEP (page 4).
2	3-1-602	The campus is not in compliance with the local fire and safety laws (page 18).

RECOMMENDATIONS

The evaluation team offers the following recommendations for the institution's consideration (*These recommendations are not included in the report seen by the Council*):

MISSION:

- The student learning outcomes section of the CEP should be revised to emphasize those measurements that truly reflect what the students have learned (projects, senior seminars, portfolio assessment, capstone projects, externships, grade distribution, etc.). The current CEP includes these items along with many other issues such as curriculum development and instructional support that may influence student learning, but are not direct measurements of such.
- When revising the CEP, the campus should develop a section for the sixth area to be evaluated as indicated by criteria, graduation rates.

FACILITY:

- The team observed and experienced electrical issues affecting lighting on the 1st and 2nd floor classrooms. Interviews with administration confirmed that the 2nd floor electrical issue is recurring and action for resolution was enacted. The team also found multiple electrical outlet boxes exposed and uncovered in the learning commons area, which is perceived as a further concern for safety. It is recommended that these boxes be repaired and covered.
- There is an overall appearance of uncleanness throughout the student learning commons area; in particular, the seating furniture for students is visibly stained and appears unattractive and unsanitary.
- Audio visual technology is reported by faculty and students as barely adequate and could benefit from additional maintenance, especially for better sound quality. It is recommended that these concerns be addressed to improve the overall student experience.

BUSINESS ADMINISTRATION:

Although students are generally happy with the overall campus, they would like to see more activities common to a more traditional college campus such as a basketball team.

GRAPHIC DESIGN:

Completing the setup of the render farm to support Maya would assist in speeding up the rendering process and freeing up additional laboratory computers. If there is room, adding the old lab computers (that are being replaced) to the render farm would also help to increase the overall processing power. The campus may also want to investigate using the OUYA development kit so that students can gain some practical experience in game console development.

INTERIOR DESIGN:

- There is currently one part-time faculty member teaching for the program and a program chair who also teaches some classes. Both faculty members have earned degrees in architecture and practice primarily as architects. There are no faculty members in the program that have earned degrees in interior design, have national interior design exam qualification, or interior design professional organization appellation. It is recommended that the administration hire and retain faculty that have one or more of these qualification examples and assign interior design theory and interior design studio-based classes to these faculty for a better balance of architectural and interior design skill outcomes and a wider breath of industry perspective, understanding, and standards.

- The team observed a majority of the computers in the dedicated interior design computer laboratories are in the process of rendering and not available for other student use during classtime. Interviews with students confirmed slow computer speeds. The team recommends an action plan for technology equipment improvement for this program.

ALLIED HEALTH PROGRAMS:

- Courses including MICB 220, ICD9 CM Coding Essentials should start incorporating training for ICD-10 which is scheduled for implementation in October 2014. Information can be obtained from the Centers of Medicare and Medicaid Services at www.CMS.gov.
- Increased utilization of interactive software's, DVDs and test prep books and articles in library to enrich the allied health programs.

CONSTRUCTION MANAGEMENT:

- Monitor prerequisites very closely. One student in the Construction Management program, Ms. Rosana Chaves, took CM260 before taking CA201.
- The Construction Management program currently uses MS Project as a scheduling software. The team recommends the institution use an industry standard software such as Primavera.
- Revise the language in the catalog regarding one of the program learning outcomes for the Construction Management program. Students do not learn enough CAD skills to "create construction drawings." The team recommends the word "create" be revised to "interpret."

INTRODUCTION

ITT—Southfield opened in March 2012 with 19 students enrolled in two academic associate's degree programs. The campus now offers four academic associate degree programs and plans to graduate its first class in December 2013. Although Southfield is not a low-income area, most students are lower-income students from the Detroit area. Most students are age 25 or older, most are male, and most have not attended any postsecondary institution before.

Although the campus reported in its 2012 CAR an impressive overall retention rate of 85%, the campus has a year-to-date retention rate in the Drafting and Design associate-degree program of 49%. This is a new program and was not reported in the 2012 CAR. The campus has already developed an improvement plan for the program and included it in its current CEP.

The CEP contains no real measurement of student learning outcomes--mostly, plans of what it will do. However, the campus has been offering classes since March 2012 and could report student learning outcomes in terms of GPAs. Although the CEP stated the campus analyzes results of the corporate midterm and final exams, no such analysis is included in the CEP.

INTRODUCTION

In March 2006, the Westwood College Annandale opened its doors for the inaugural term. The campus is nestled in the beltway of our nation's capital, located at 7619 Little River Turnpike, Suite 500, in Annandale, Virginia. Initially, the college was accredited by the Accrediting Commission of Career Schools and Colleges (ACCSC) and its programs were approved by the State Council of Higher Education for Virginia (SCHEV). In December 2010, the college received initial accreditation from the Accrediting Council for Independent Colleges and Schools (ACICS).

Due to rapid student population growth, it was apparent that the college needed additional space for classrooms and labs. In August 2010, the college added 9,815 additional square feet in an adjoining building located at 7611 Little River Turnpike, 6th Floor, Annandale, Virginia. The Hon. John Roll courtroom has shared occupancy in the additional space since February 2011.

A consortium agreement is signed with Westwood College Online to offer campus students the opportunity to take courses through online delivery, providing more flexibility in class options for students enrolled in residential campus programs.

As of July 1, 2013, the student population is 386.

1. MISSION

☒ Yes ☐ No

CAMPUS EFFECTIVENESS

- 1.07 Does the campus have a current Campus Effectiveness Plan (CEP)?
☒ Yes ☐ No
- 1.08 If the campus is an additional location, does the additional location have its own CEP, separate from the main campus IEP?

☒ Yes ☐ No ☐ Not Applicable

1.09 Does the CEP describe the following?

(a) The characteristics of the programs offered.

☒ Yes ☐ No

(b) The characteristics of the student population.

☒ Yes ☐ No

(c) The types of data that will be used for assessment.

☒ Yes ☐ No

☒ Yes ☐ No

(e) Expected outcomes of the plans.

☒ Yes ☐ No

1.10 Are the following five required elements evaluated in the CEP?

(a) Student retention.

☒ Yes ☐ No

(b) Student placement.

☒ Yes ☐ No ☐ Not Applicable (new additional location only)

(c) Level of graduate satisfaction.

☐ Yes ☒ No ☐ Not Applicable (new additional location only)

(d) Level of employer satisfaction.

☒ Yes ☐ No ☐ Not Applicable (new additional location only)

(e) Student learning outcomes.

☒ Yes ☐ No

(Section 3-1-111): Follow-up studies on graduate satisfaction are not being completed in compliance with *Criteria*. The team verified the campus conducts "graduate" surveys only once, and these surveys are conducted during a student's last term, prior to graduation. While on-site, the campus created a new policy that states they will be sending out graduate surveys 150 days following a student's graduation. In addition, their corporate headquarters stated they will implement the new surveys.

1.11 Define the student learning outcomes used by the campus and how these outcomes are being assessed.

The campus assesses student-learning outcomes through an analysis of certification exams, cumulative G.P.A., and grade distribution. These assessments are linked together to form a comprehensive evaluation of student learning. Student learning outcomes are assessed by comparing baseline data with current rates in each of the areas mentioned above.

1.12 Are the following identified and described in the CEP?

☒ Yes ☐ No ☐ Not Applicable (new additional location or initial applicant only)

1.14 Has the campus published specific activities that will be undertaken to meet placement and retention goals?

☒ Yes ☐ No ☐ Not Applicable (new additional location only)

The Art Director's Club of Metro Washington, which offers student memberships, allows professional networking opportunities for the students. A relationship has been created between the Annandale Chamber of Commerce and Graphic Design students to work together on the production of banners, public area graphics, and high profile logos for the purpose of establishing a new, contemporary identity to enhance the City of Annandale's commercial public space and tourist appeal.

9. PROGRAM EVALUATION

Academic Associate's Degree in Computer Aided Drafting/Architectural Design

Bachelor's Degree in Interior Design

9.01 Is licensure, certification or registration required to practice in the specific career field?
☐ Yes ☒ No (*Skip to question 9.02*)

9.02 Who is assigned to administer the academic program(s), and what are this person's qualifications?
 Mr. Jeff Fiore, program chair, administers the Computer Aided Drafting/Architectural Design and Interior Design programs.

As previously noted, he holds a bachelor's degree in Digital Media/Animation from East Tennessee State University and a master's degree in Interactive Design and Game Development from Savannah College of Art and Design. Mr. Fiore has been at the institution for about four and one-half years and in the position of academic chair for two years. As chair, he oversees a total of one full-time and five part-time instructors, and teaches approximately eight hours a week in addition to his duties as program administrator. He holds professional membership in the American Institute of Graphic Arts (AIGA), and has worked for drafting firms as an architectural draftsman for survey drafting and website design, a freelance designer, and as the owner and director of his own design firm, J. Fiore Studio.

Mr. Fiore's academic and experiential background makes him well suited to be the program chair. However, he does not have sufficient expertise in Interior Design, so he is supported by Ms. Kirstin Bonner, lead instructor of the Interior Design program. Ms. Bonner holds a bachelor's degree in Interior Design from Mount Vernon College, and has worked at the Annandale campus for the last six years and has been lead instructor for the last three years. Her work experience includes 12 years as principal of her own design firm, and 9 years as design manager of office furniture firms. Ms. Bonner's academic and experiential background makes her well-suited for the lead instructor position.

 (b) Student placement rate of 58%?
☒ Yes ☐ No ☐ Not Applicable (Additional Location Inclusion only)
- 9.07 List the community resources and describe how they are utilized to enrich the program(s).
 There is documented evidence of guest speakers, field trips, portfolio presentations, and professional advisory committee meetings. One unique event was the creation of Annandale's Historic Town Center. The scope of the project was to reclaim a circular area in the heart of Annandale. Using urban design techniques, the space will include revised automobile patterns, landscaping, façade definitions, and local signage. The project involved all the programs in the School of Design. Ultimately, the project was presented to Annandale Chamber of Commerce.

RECOMMENDATIONS

The evaluation team offers the following recommendations for the institution's consideration. *(These recommendations are not included in the report seen by the Council):*

1. That staff files be maintained to contain all pertinent information and verifying documents of staff credentials and professional experience.
2. The team found during interviews with two separate groups of Medical Assisting students enrolled in the diploma and degree programs, that students are mandated to complete some medical testing before being placed at the externship sites. Students expressed dissatisfaction with the requirements stating they were not informed about the mandatory testing at enrollment or before the externship placement, and they were put in very difficult circumstances related to their inability to pay for these tests. During the time of the visit, the team investigated the concern and found the campus does provide students with a statement at the time of the admission that verbates the requirements. Although the statement is clear, given the confusion expressed by the students the team recommends the campus specifically explain this specific requirement in the enrollment agreement, at the time of admission, so students are made aware and understand what is required before they get to the externship placement phase of the program.
3. That some equipment be updated to more current industry standards especially in the areas of graphic design and animation. Students stated, as per interview, that work could be expedited with newer, updated versions of both hardware and software equipment.
4. The majority of the Interior Design classes are taught in two rooms in the West Wing 6th floor. Neither of those rooms has computers installed in them; when computers are needed they bring in a cart of laptops. It is recommended that additional computers be provided in the rooms for the students to use before, during, and after class.
5. Expanding the part-time instructor pool for the Interior Design program to allow for a more diverse experience perspective and teaching approach.
6. More faculty observations on an ongoing basis.

INTRODUCTION

Westwood College Arlington Ballston is one of 14 campuses owned and operated by Alta College, Inc., located in Denver, Colorado. In addition to the 14 campuses located in California, Colorado, Georgia, Illinois, and Virginia, there is a Westwood College Online unit located in Denver which has consortium agreements to offer online courses for all 14 Westwood College campuses, including the Arlington Ballston campus.

The Arlington Ballston campus initially started offering programs in October 2005 at a facility located in Roslyn, Virginia, in the Washington, DC, metro area. Operations were later moved to a location on Wilson Boulevard in Arlington County (commonly referred to as "Arlington"), Virginia. The move of just a few blocks from Wilson Boulevard to the current location at 4420 North Fairfax Drive in Arlington started in July 2011, and all educational program and administrative functions were finally moved and operating in approximately 40,000 square feet of space in the five-story building at the current location in July 2012.

Arlington County (Arlington) is located in northern Virginia on the south bank of the Potomac River directly across from the District of Columbia. Due to the county's location, it is the headquarters for many departments and agencies of the United States federal government, including the Department of Defense, the U.S. Drug Enforcement Agency, and the Defense Advanced Research Projects Agency (DARPA). With a land area of only 26 square miles, Arlington is the geographically smallest county in the nation and the only county with no other incorporated towns within its border. The many federal agencies, government contractors, and service industries in Arlington, contribute to the area's stable economy and make it one of the highest income counties in the United States.

As reported on the previous page, there are a total of 400 students enrolled in 1 diploma, 7 academic associate's degree, and 13 bachelor's degree programs at the Arlington Ballston campus. Approximately, 30 students are enrolled in the diploma program, 200 in the associate's degree programs, and 170 in the bachelor's degree programs. Approximately 300 of the students are enrolled on a full-time basis, 100 on a part-time basis; roughly 75% of the students are classified as day students and 25% as evening students. In addition to the students completing courses onsite at the campus, the campus president provided data indicating there are a total of 77 different Arlington Ballston students enrolled in a total of 36 different online courses being offered and taught by faculty from the Westwood College Online unit in Denver.

Based on the most recent data available, the Campus Effectiveness Plan reports the student population is 57% male, 43% female; with an average age of 33.8 years. Of those reporting their ethnicity, 79% of the student population is African American, 6% multi-racial, 4% Caucasian, 3% Hispanic, and 1% Asian---with approximately 7% unreported.

It is important to note that all Westwood College campuses converted to a curriculum called the Career Advantage Program (CAP) in 2012. All programs were reviewed by system curriculum committees and modified to be more efficiently delivered. A major change resulting from the implementation of the CAP curriculum is that most courses were changed from granting 3.5 quarter credits to 4.5 quarter credits. A second major change was the development of more associate's degree programs. For example, the Arlington Ballston campus started its associate's degree programs in Business Administration, Construction Management, and Criminal Justice in August 2012 and in Medical Assisting in May 2013. Further, as reported at the bottom of the table on the previous page, the campus has been approved to offer and plans to start its first classes in October 2013 for new associate's degree programs in Electronics Technology, Health Information Technology, and Information Technology.

☒ Yes ☐ No

(Section 3-1-111): The team found that follow-up studies on graduate satisfaction are not being completed following graduation.

The campus has verified that it conducts "graduate" surveys only once, and these surveys are conducted during a student's last term, prior to graduation. While onsite, the campus created a new policy that stated they will be sending out post-graduation surveys at 150 days following graduation. Additionally, their corporate headquarters were stated to have implemented the new surveys.

1.11 Define the student learning outcomes used by the campus and how these outcomes are being assessed.

The CEP identifies certification exams, capstone grades, and cumulative GPA as student learning outcomes and states "these assessments are linked together to form a comprehensive evaluation of student learning."

The CEP reports that the goals for retention and placement for the 2013 CAR period are 70% and 75%, respectively.

1.14 Has the campus published specific activities that will be undertaken to meet placement and retention goals?

☒ Yes ☐ No ☐ Not Applicable (new additional location only)

1.15 Describe the specific activities that the campus will undertake to meet these goals.

Following are some of the activities to be undertaken to achieve the retention rate goal: holding "Student Success" meetings twice weekly to discuss at-risk students and create action plans to provide support to these students; shifting the responsibility for returning students from Student Support to Admissions; and revamping the Transportation Assistance program to provide better holistic support to students and to seek to link these students with Career Services earlier.

Following are some of the activities to be undertaken to achieve the placement rate goal: rather than starting the career services process when graduation is nearing, administration has reset the goal for students to be employed in their field prior to graduation; increase the number and frequency of job fairs on campus; advance the date of the "Grad Fest"--a program for potential graduates--to the START of the graduation term rather than conducting this program the week before the end of the term as has been done previously.

1.16 Does the campus have documentation to show the following?

(a) That the CEP has been implemented.

☒ Yes ☐ No

(b) That specific activities listed in the plan have been completed.

The campus also collected feedback from 5 of 50 members of program advisory committees employers to determine employer satisfaction. However, the employer feedback is not being collected at specific measuring points following placement of graduates. Further, given the relatively low response rate and the small number of respondents, most research design experts and statisticians would advise against drawing conclusions and making decisions based on the feedback collected from the five advisory committee members.

Campus president, M. Lauck Walton, informed the team that Westwood College corporate is aware of this area of non-compliance being present at all of the campuses and is in the process of developing plans and a system for collecting the required graduate and employer satisfaction information. The collection of data and processing of responses to determine the results will be completed at the corporate level. Analysis of the findings will be done at the campus level.

 The Medical Assisting programs have strong community support as witnessed by contracts they have with clinical affiliates for the externship component of the programs. Additionally, guest speakers, field trips, a program advisory committee (PAC), and community outreach activities are utilized to enrich the programs. The team verified the use of these activities by reviewing appropriate documentation and during interviews with students and faculty.

☐ Yes ☒ No

If *No*, insert the section number in parentheses and explain:

(Section 3-1-513(b)): The Anatomy and Physiology I (BIOL170) course does not require completion of Medical Technology (HLTH105) as a prerequisite for registration. A review of the syllabi for the two Anatomy and Physiology courses revealed the course objectives and other information on the syllabus for the second course, Anatomy and Physiology II (BIOL171), state it is a continuation of the first course, and the catalog description and syllabus for Anatomy and Physiology II (BIOL171) does list the Medical Terminology course (HLTH105) as a prerequisite, while HLTH105 is not a prerequisite for Anatomy Physiology I. Campus administration and the program chair informed the team that students usually do complete HLTH105 prior to or concurrently with BIOL170, but listing HLTH105 as a prerequisite for BIOL170 could limit the flexibility of enrolling and scheduling students for various terms. However, having HLTH105 as a prerequisite for BIOL170 is necessary to provide students with a more appropriate foundation for beginning BIOL170, and to structure the completion of courses to provide an increasing level of difficulty as students progress through the Medical Assisting programs.

GENERAL COMMENTS:

As previously stated, the following citation in Section 5 of this report impacts the Medical Assisting program students:
 (Section 3-1-516(a)(i)): There is not appropriate documentation to evidence the 10-hour, 1-credit lecture component of the MEDI299 externship course is scheduled appropriately or to verify that students are meeting regularly with an instructor to satisfy the contact hours needed for the granting of 1 quarter credit. See item 5.18 in Section 5. Educational Activities of the report for a more detailed explanation.

COMMENDATIONS:

Externship site supervisors who were interviewed were highly pleased with the students doing externships in their facilities.

SUMMARY

The campus is not in compliance with the *Accreditation Criteria* in the following areas:

Number	Citation	Summary Statement
1.	Sections 3-1-111 and 3-1-441(c)	Follow-up studies on graduates and employers are not being conducted by the institution at specific measuring points following placement of the graduates (pages 5 and 14).
2.	Section 3-1-513(b)	The prerequisite system for the Medical Assisting programs does not assure that students are provided an increasing level of difficulty as they progress (page 48).
3.	Section 3-1-516(a)(i))	There is not appropriate documentation to evidence that students in one course are meeting for an appropriate number of contact hours (pages 17 and 51).
4.	Section 3-1-543 and Glossary	Appropriate documentation of professional growth and/or in-service activities is not on file for some faculty members (page 18).

RECOMMENDATIONS

The evaluation team offers the following recommendations for the institution's consideration.

(These recommendations are not included in the report seen by the Council)

- During the visit students told the team that on at least one occasion an unknown person had entered a classroom and was found there when a class was scheduled to start. Although the team could not verify this, the team did confirm that the campus issues student ID cards; but no policy statement was found requiring these cards to be displayed while in the building. Since the building is shared with another company and it appears there is no restriction or security in place to prevent anyone from entering the building and the area where the Westwood College activities are conducted, the team suggests that the campus administration consider reviewing whether some type of security system should be implemented. This may be as simple as requiring students, faculty, and staff to display their Westwood College ID cards while in the building; but it may be more complicated than this to be effective.
- The team found the on-shelf collection in the library for the Graphic Design programs to be barely adequate to satisfactorily support current programs. Therefore, the team feels campus administration should work with the program chair and campus librarian to identify and obtain more books and periodicals that pertain specifically to graphic design, animation, game design, and visual communications to be available in the onsite learning commons area.
- Mr. Josh Haycraft the "new" program chair for the school of design informed the team he is very interested in developing and implementing a plan to have more events at the campus to raise community awareness of the presence and activities of the school. Given his position, of course, his interest is primarily focused on raising the awareness of the activities, products, and projects of students in the school of design. The team encourages campus administration to work with and provide support for Mr. Haycraft's enthusiasm and efforts in this regard where feasible. An investment of some administrative time and more tangible resources may result in a variety of benefits for the school of design as well as the campus in general.
- As noted in the report, the decision by campus administration to pay for certification exams for students and faculty in the School of Technology programs has generated a high level of excitement and enthusiasm among students and faculty in those programs. Given this action has had such positive results in the Technology programs, campus administration should probably review all of the current programs offered to determine if there is opportunity to provide similar options for students in other programs.

1.11 Define the student learning outcomes used by the campus and how these outcomes are being assessed.

The campus measures student learning outcomes using four measures - capstone courses, capstone assessment data, student engagement, and student success. For the first measure, capstone courses, many of the ITT Technical Institute programs utilize a capstone course to solidify the student's overall learning process and to determine the level of the student's understanding of the program objectives. Beginning in December 2013, when the first capstone courses are offered, the campus dean will start tracking class average grades for capstone courses and develop a history of data that can be used to analyze student learning outcomes. For the second, capstone assessment data, the campus assesses specific learning outcomes through the application of an assessment rubric (communication skills, teamwork, critical thinking, et al.). As assessment data becomes available after the first capstone classes are offered, the faculty will begin reviewing proficiency levels achieved by graduates and take measures for continuous learning outcomes improvement. For the third, the campus measures student engagement by taking into account student attendance and the ability of the student to complete program courses. Data is currently being collected by the dean to measure student engagement. For the fourth, student success is measured by dividing the number of passing students by the number of student attempts. The number of students starting and passing a course is an indicator of the potential to achieve student learning outcomes. Data is currently being collected by the dean to measure student success.

SUMMARY

The institution is not in compliance with the *Accreditation Criteria* in the following areas:

<u>Number</u>	<u>Citation</u>	<u>Summary Statement</u>
1	Section 3-1-512(c)	There is not sufficient use of community resources to enrich the academic associate's degree programs in Network Systems Administration and Electrical Engineering Technology (pages 26, 29 and 30).

RECOMMENDATIONS

The evaluation team offers the following recommendations for the institution's consideration *(These recommendations are not included in the report seen by the Council)*:

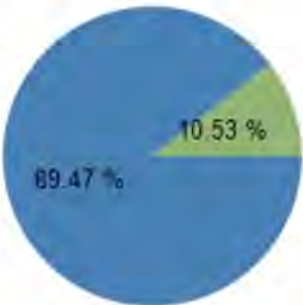

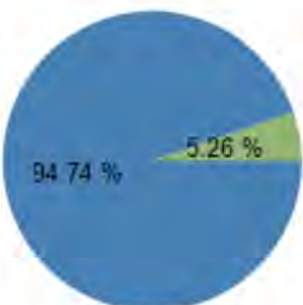

Drafting and Design Technology:

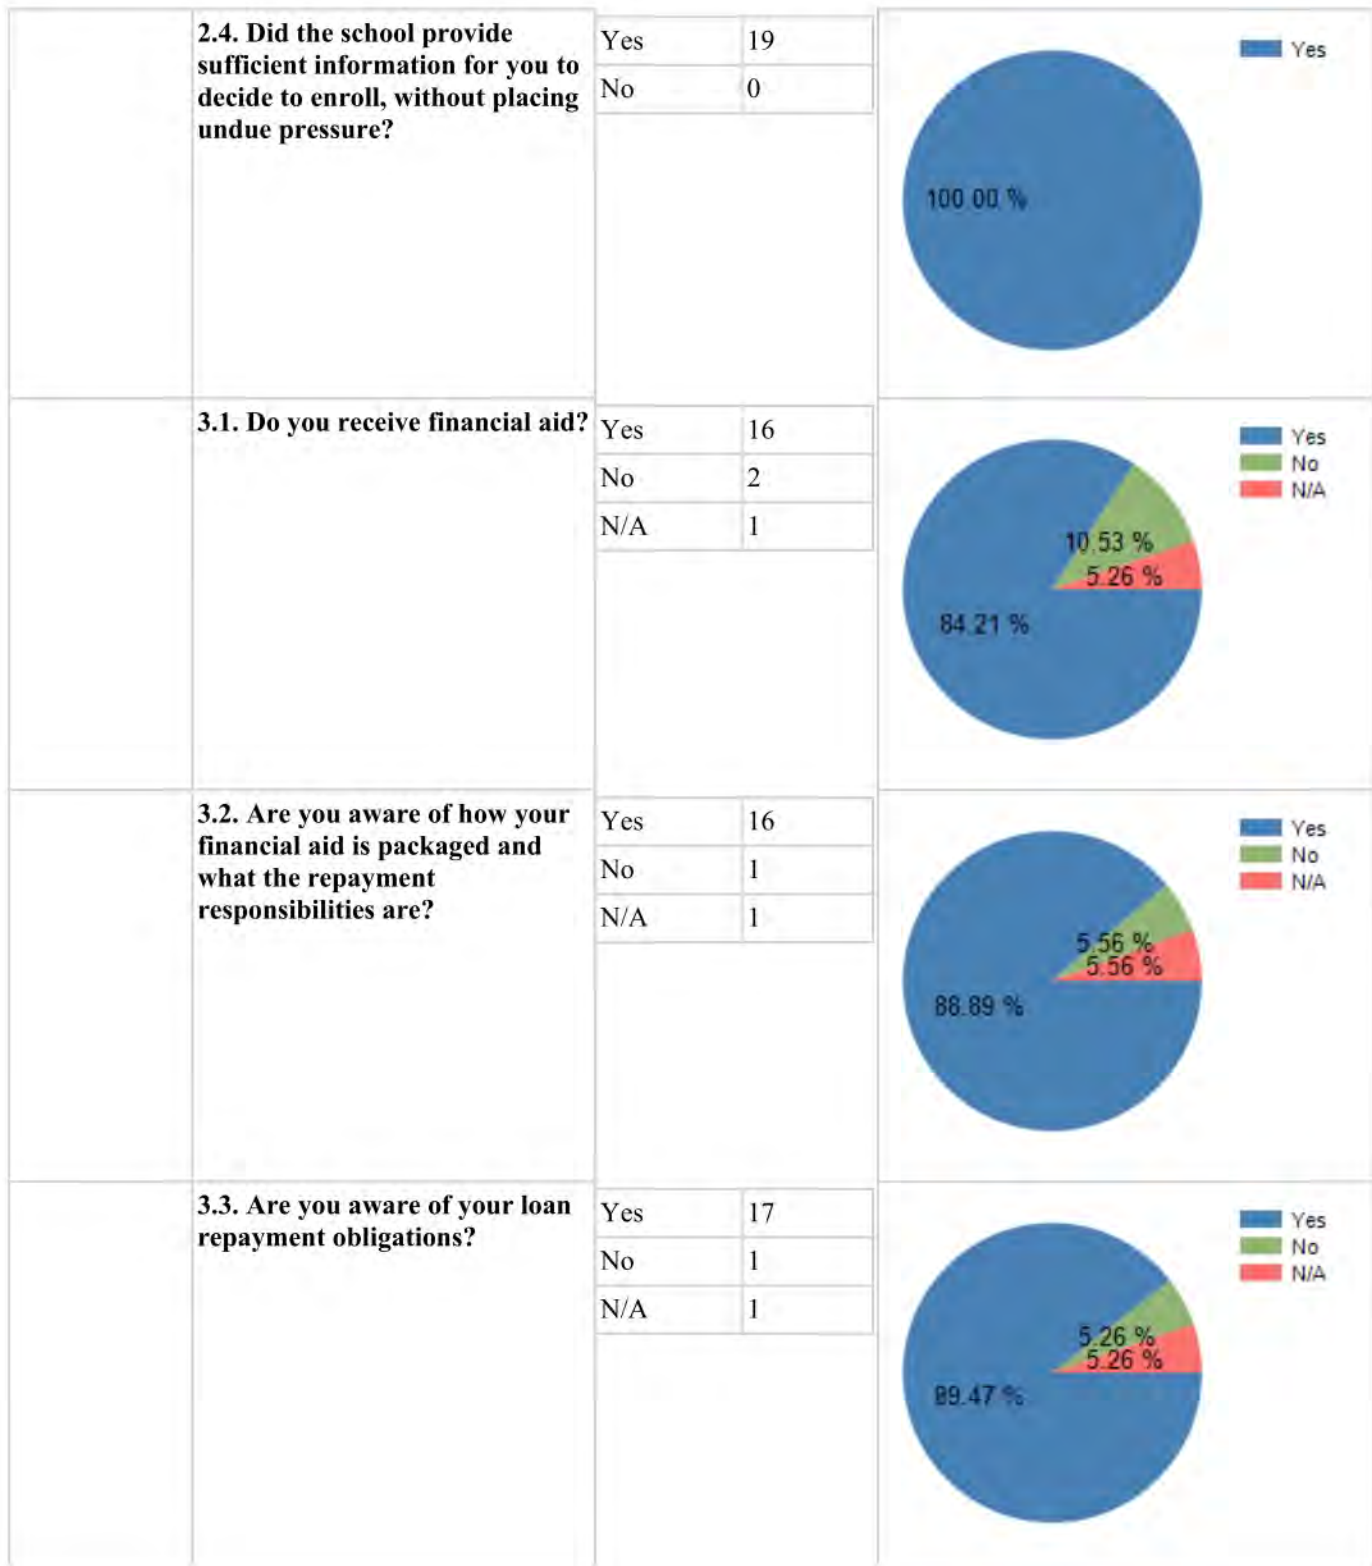

- That a projector be provided in the Drafting and Design Technology classroom to support the mode of instructional delivery to students in the program.
- Students should receive a package with drawing materials that includes a drawing board and proper drawing tables with parallel or T-rulers. These items should be included in the package of supplies that students receive at the beginning of the term.

Please find below the results of the Student Surveys issued to several students while the team was on-site. Please note that these results are aggregated and are not distinguished by individual programs.

INTRODUCTION

In March 2006, the Westwood College Annandale opened its doors for the inaugural term. The campus is nestled in the beltway of our nation's capital, located at 7619 Little River Turnpike, Suite 500, in Annandale, Virginia. Initially, the college was accredited by the Accrediting Commission of Career Schools and Colleges (ACCSC) and its programs were approved by the State Council of Higher Education for Virginia (SCHEV). In December 2010, the college received initial accreditation from the Accrediting Council for Independent Colleges and Schools (ACICS).

Due to rapid student population growth, it was apparent that the college needed additional space for classrooms and labs. In August 2010, the college added 9,815 additional square feet in an adjoining building located at 7611 Little River Turnpike, 6th Floor, Annandale, Virginia. The Hon. John Roll courtroom has shared occupancy in the additional space since February 2011.

A consortium agreement is signed with Westwood College Online to offer campus students the opportunity to take courses through online delivery, providing more flexibility in class options for students enrolled in residential campus programs.

As of July 1, 2013, the student population is 386.

Mr. Fiore's academic and experiential background makes him well suited to be the program chair. However, he does not have sufficient expertise in Interior Design, so he is supported by Ms. Kirstin Bonner, lead instructor of the Interior Design program. Ms. Bonner holds a bachelor's degree in Interior Design from Mount Vernon College, and has worked at the Annandale campus for the last six years and has been lead instructor for the last three years. Her work experience includes 12 years as principal of her own design firm, and 9 years as design manager of office furniture firms. Ms. Bonner's academic and experiential background makes her well-suited for the lead instructor position.

GENERAL COMMENTS:

The team found the students and instructors demonstrate a passion and dedication to learning.

COMMENDATIONS:

The team found one unique program activity was to recreate Annandale's Historic Town Center. The scope of the project was to reclaim a circular area in the heart of Annandale, and then using urban design techniques, the space included revised automobile patterns, landscaping, façade definitions, and local signage. The project involved all the students in the school of design programs and, ultimately, it was presented to Annandale Chamber of Commerce.

SUMMARY

The institution is not in compliance with the *Accreditation Criteria* in the following areas:

Number	Citation	Summary Statement
1.	Sections 3-1-111 and 3-1-441(c)	Follow-up studies on graduates are not being conducted by the institution at specific measuring points following placement of the graduates (pages 4 and 13).
2.	Section 3-1-202(b)	Documentation of evaluations is not maintained for all faculty members (page 6).
3.	Section 3-1-303(a)	The team cannot verify that three students in the bachelor's program in Construction Management are appropriately classified on the CAR (page 47).
4.	Section 3-1-420 and Appendix D	The team finds that the implementation of the satisfactory academic progress (SAP) policy does not comply with the requirements of the <i>Accreditation Criteria</i> (pages 10-11).
5.	Section 3-1-513(b)	Courses are not available when needed by the student in the normal pursuit of the program and prerequisites are not being followed (page 51).
6.	Section 3-1-516(a)(i)	There is not appropriate documentation to evidence that students in one course are meeting for an appropriate number of contact hours (page 16).
7.	Section 3-1-543 and Glossary	Documentation of professional growth is not available for all faculty members (pages 17-18).

RECOMMENDATIONS

The evaluation team offers the following recommendations for the institution's consideration. *(These recommendations are not included in the report seen by the Council):*

1. That staff files be maintained to contain all pertinent information and verifying documents of staff credentials and professional experience.
2. The team found during interviews with two separate groups of Medical Assisting students enrolled in the diploma and degree programs, that students are mandated to complete some medical testing before being placed at the externship sites. Students expressed dissatisfaction with the requirements stating they were not informed about the mandatory testing at enrollment or before the externship placement, and they were put in very difficult circumstances related to their inability to pay for these tests. During the time of the visit, the team investigated the concern and found the campus does provide students with a statement at the time of the admission that verbates the requirements. Although the statement is clear, given the confusion expressed by the students the team recommends the campus specifically explain this specific requirement in the enrollment agreement, at the time of admission, so students are made aware and understand what is required before they get to the externship placement phase of the program.
3. That some equipment be updated to more current industry standards especially in the areas of graphic design and animation. Students stated, as per interview, that work could be expedited with newer, updated versions of both hardware and software equipment.
4. The majority of the Interior Design classes are taught in two rooms in the West Wing 6th floor. Neither of those rooms has computers installed in them; when computers are needed they bring in a cart of laptops. It is recommended that additional computers be provided in the rooms for the students to use before, during, and after class.
5. Expanding the part-time instructor pool for the Interior Design program to allow for a more diverse experience perspective and teaching approach.
6. More faculty observations on an ongoing basis.

INTRODUCTION

The ITT Technical Institute in San Antonio is part of a nationwide system of over 140 campuses in 38 states owned and operated by ITT/ESI, which is headquartered in Carmel, Indiana. The campus, which opened its doors for classes in June 2012, currently offers three academic associate's degree programs and anticipates expanding its offerings at both the associate's and bachelor's degree levels. The campus, located in the heart of the Alamo country, mainly attracts students from the San Antonio metropolitan area, with a population of over 1.5 million, and includes a large contingent of students (30%) from 3 major military bases in the area. In addition, the student population, consisting of mainly adult and evening learners, is representative of the local community demographics, the breakdown by race is 41.7% Hispanic, 26.7% Caucasian, 13.3% African-American, 3.3% Asian-American, and 15% undisclosed; and by gender, 85% male and 15% female.

1.11 Define the student learning outcomes used by the campus and how these outcomes are being assessed.

The campus measures student learning outcomes using four measures - capstone courses, capstone assessment data, student engagement, and student success. For the first measure, capstone courses, many of the ITT Technical Institute programs utilize a capstone course to solidify the student's overall learning process and to determine the level of the student's understanding of the program objectives. Beginning in December 2013, when the first capstone courses are offered, the campus dean will start tracking class average grades for capstone courses and develop a history of data that can be used to analyze student learning outcomes. For the second, capstone assessment data, the campus assesses specific learning outcomes through the application of an assessment rubric (communication skills, teamwork, critical thinking, et al.). As assessment data becomes available after the first capstone classes are offered, the faculty will begin reviewing proficiency levels achieved by graduates and take measures for continuous learning outcomes improvement. For the third, the campus measures student engagement by taking into account student attendance and the ability of the student to complete program courses. Data is currently being collected by the dean to measure student engagement. For the fourth, student success is measured by dividing the number of passing students by the number of student attempts. The number of students starting and passing a course is an indicator of the potential to achieve student learning outcomes. Data is currently being collected by the dean to measure student success.

SUMMARY

The institution is not in compliance with the *Accreditation Criteria* in the following areas:

<u>Number</u>	<u>Citation</u>	<u>Summary Statement</u>
1	Section 3-1-512(c)	There is not sufficient use of community resources to enrich the academic associate's degree programs in Network Systems Administration and Electrical Engineering Technology (pages 26, 29 and 30).

RECOMMENDATIONS

The evaluation team offers the following recommendations for the institution's consideration *(These recommendations are not included in the report seen by the Council)*:

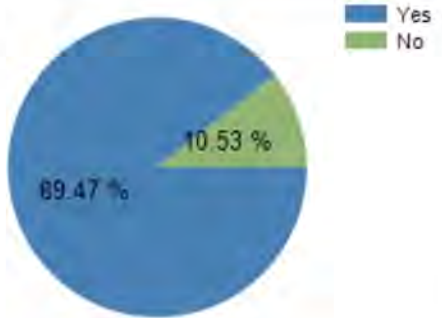

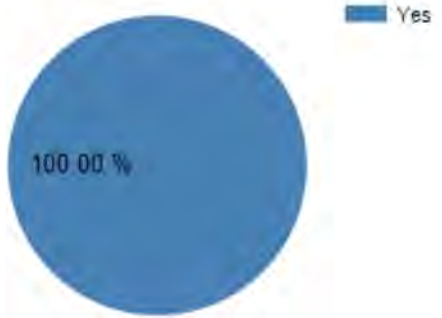

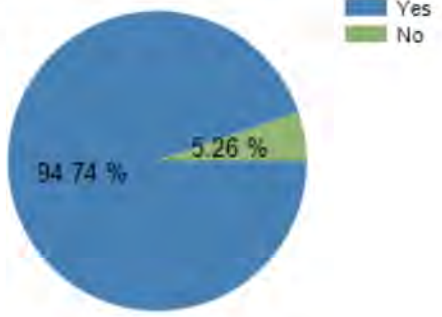

Drafting and Design Technology:

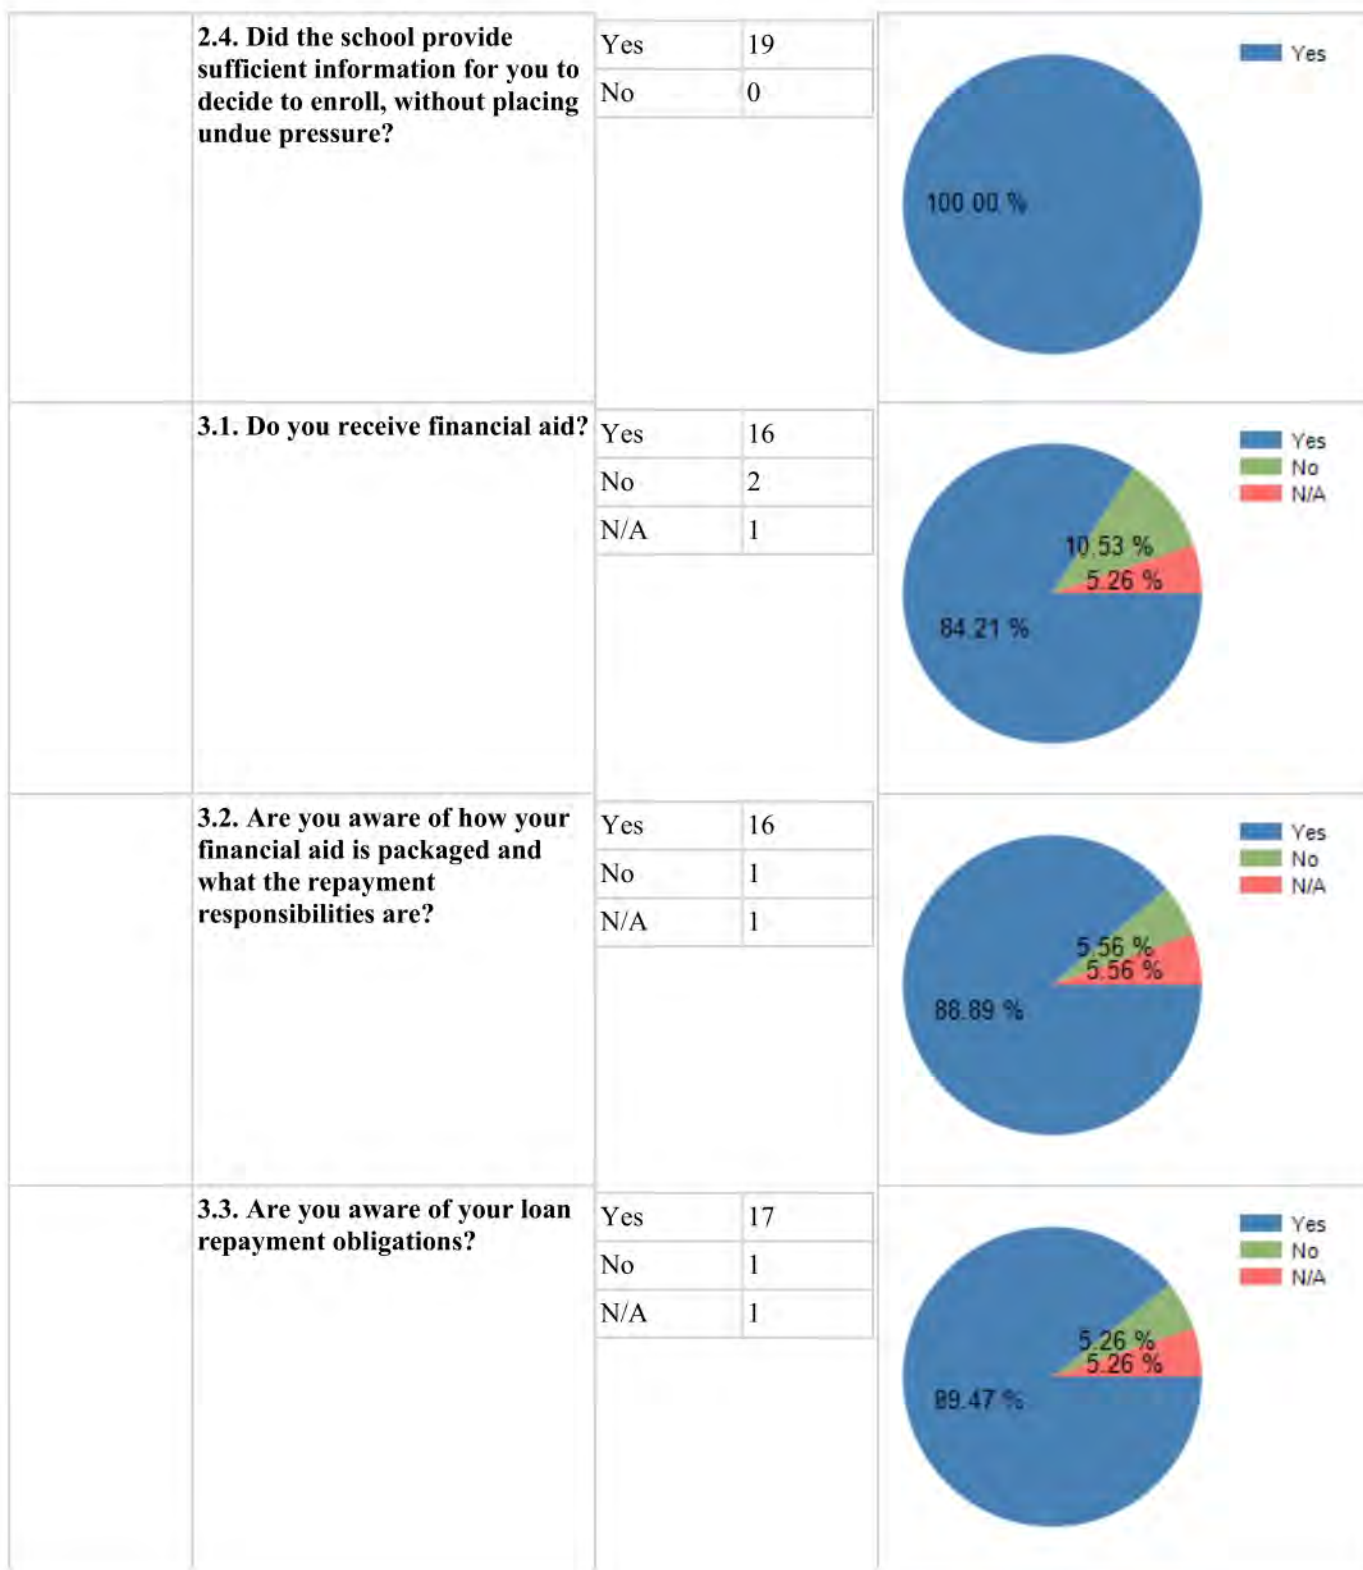

- That a projector be provided in the Drafting and Design Technology classroom to support the mode of instructional delivery to students in the program.
- Students should receive a package with drawing materials that includes a drawing board and proper drawing tables with parallel or T-rulers. These items should be included in the package of supplies that students receive at the beginning of the term.

Please find below the results of the Student Surveys issued to several students while the team was on-site. Please note that these results are aggregated and are not distinguished by individual programs.

INTRODUCTION

ITT Technical Institute, Douglasville, is one of over 140 similar institutions operated by ITT Educational Services, Inc. (ITT/ESI), which is based in Carmel, Indiana. ITT-Douglasville's mission is to provide technology-oriented programs to students seeking associate's degrees. It opened in June 2012 with a student body of 20 that has grown to its current population of approximately 140. Starting in September 2014, the campus will begin offering bachelor degree programs.

ITT-Douglasville students are predominantly male—72.1% male to 27.9% female; primarily self-identified as African-American or Black, non-Hispanic (44.2%); 41.4% Caucasian or White, non-Hispanic; and the remaining 14.4% divided between Hispanic and undisclosed. Students are between the ages of 17 and 61-plus; majority of the students are within the 21-40 year-old range. The largest program is the Networking Systems Administration, which represents 28.85% of all students according to the 2012 Campus Effectiveness Plan (CEP). The smallest is the Business Management program, which represents 12.5% of the students.

The campus is located conveniently off I-20 near the Douglas Crossing Shopping Center in Douglasville. Douglasville was founded in 1875 by the Georgia General Assembly and is the county seat for Douglas County. Downtown Douglasville is listed on the National Register of Historic Places as an outstanding example of a turn-of-the-century southern railroad town. The town's architecture shows examples of buildings from the Victorian era to the early mid-20th century. The dominant feature of Douglasville is the railroad right-of-way running through downtown.

As with many smaller towns across the country, when I-20 was located south of downtown, many retail functions moved to areas along the interstate. Downtown Douglasville still hosts a number of professional, retail, and government functions while no longer serving as the primary shopping area for the region. The largest employers in the immediate Douglasville area are Walmart, Kroger, and the American Red Cross. As of the 2010 census, Douglasville had a population of 30,961 and is considered to be part of the Greater Atlanta area of Georgia.

GENERAL COMMENTS:

The programs are well-conceived, directed, and taught.

COMMENDATIONS:

This is a well-run campus with competent caring faculty, administration, and staff--all dedicated to the single goal of student success. Students interviewed are pleased with the education received and feel they are acquiring the necessary skills to be competitive in the global marketplace.

SUMMARY

There are no areas of non-compliance.

RECOMMENDATIONS

The evaluation team offers the following recommendations for the campus's consideration *(These recommendations are not included in the report seen by the Council.)*:

General

- That a definition of "Student Outcomes" be included in the CEP. This will give more clarity to the following discussion in the document that focuses on data analysis.

Criminal and Forensic Technology

- When updating or reviewing each course syllabus on file for the Criminology and Forensic Technology program, include the date of review on the front page.

Drafting and Design Technology

- More field trips related to the core courses of the program.

Electrical Engineering Technology and Network Systems Administration

- The campus provide full-time lead instructors for the programs; currently utilizing part-time instructors on a rotating basis potentially results in confusion and an inconsistent decision-making process for the programs and, more importantly, for the students.

* Program reviewed for the first time. **Most programs being reviewed for the first time are essentially revised programs for ITT campuses; that is, programs that are being changed from 4.0 credit hours awarded for most courses to 4.5 credit hours for most courses and from 96 quarter total credits hours to 90 quarter credit hours required in academic associate degree programs. The academic associate's degree program in Business Management is being offered for the first time this term, but is not replacing a similar program previously offered at this campus.**

** The following are plans for programs with no current enrollment, all start dates are based on student demand and perceived employer need: (a) bachelor's degree in Electrical Engineering and Communications Technology, expected start in June 2013, (b) bachelor's degree in Project Management and Administration (Construction option), anticipated start in September of 2013; (c) bachelor's degree in Project Management and Administration (Information Technology option), anticipated start in 2014; and (d) academic associate's degree in Paralegal, anticipated start in 2014.

INTRODUCTION

ITT-Knoxville is one of many campuses (~140 in 35 states) owned and operated by ITT/ESI (ITT Educational Services, Inc.). The school opened in March, 1988 and moved into its current location in 2004. It is anticipated that the campus facility will be relocated in December of 2012.

All campuses (i.e., additional locations) owned and operated by ITT/ESI have the same management structure. A director acts as a general manager at the specific location and oversees academic affairs, career services, finance, recruitment, and the registrar at that campus. The campus director reports to a district manager, who in turn reports to the senior vice president for operations at the central administration office in Indianapolis, IN.

At this campus, the various programs are administered into five schools: Information Technology, Electronics, Drafting and Design, Criminal Justice, and Business. Each school is headed by a school director. Some programs within the various schools are also headed by a lead instructor. The programs identified in the table above are currently being offered or, as noted, will soon be offered. In addition, the campus anticipates offering a program in Nursing, has employed a program chair to launch the program, and will begin the promotion and recruitment process as soon as various approvals have been received.

ITT Tech has developed new 4.5 credit hour courses, leading to 90 quarter credit hour academic associate degree programs. This campus is teaching out the current 4.0 credit hour per course/96 quarter total credit hour programs and replacing them with the 4.5 credit hour per course, 90 total quarter credit hour programs. The "new" programs now consist of 20 courses instead of 24, or 90 hours instead of 96. In the December quarter of 2011, the Knoxville campus added the identified new 4.5 credit/90 hour programs. Those students who were enrolled in

a 96-credit hour program remained in that existing program with new students enrolling in the new 90-credit hour program. The new programs will allow students to complete an academic associate degree program in 6 2/3 quarters instead of eight.

The majority of the students (87%) at the Knoxville location attend evening classes. They tend to be full-time and male; less than 30% of the students are female. Twenty-seven percent of the students identified themselves as Caucasian; however, the majority of students (~65%) do not disclose their racial identification.

The campus is authorized by the Tennessee Higher Education Commission to operate as a postsecondary institution through June 30, 2013. The campus is also approved by the State of Tennessee for vocational rehabilitation and for training of veterans by the Tennessee Higher Education Commission, Veterans' Education Division.

1.15 Describe the specific activities that the campus will undertake to meet these goals.

The campus is committed to monitoring daily attendance, advising students who are absent or at risk for not attending regularly, and monitoring instructor and chair contact with absent students to improve completion. Faculty are monitored very closely on metrics of attendance, retention, and success. Instructors who are not meeting the metrics are redirected, coached, mentored, or reassigned. As for placement, a new director of career services has been employed to enhance the placement role and relationships with the business community. The director will conduct "reputation building events" with the community, increase the number of employer contacts to develop stronger relationships, and create opportunities for employers to visit the campus. Career services staff also plan to conduct and digitally capture mock interviews with students and local employers for training purposes and provide resume, portfolio, and salary negotiation workshops for graduates and pre-graduates.

1.16 Does the campus have documentation to show the following?

(a) That the IEP has been implemented.

☒ Yes ☐ No

(b) That specific activities listed in the plan have been completed.

1.17 Who is responsible for implementing and monitoring the CEP? Describe this individual's qualifications. If a committee is utilized please describe the committee.

The CEP team consists of the campus director, dean, associate dean, director of finance, director of recruitment, director of career services, registrar, school chairs, and faculty representatives from each school of study at the campus.

1.18 Does the campus have documentation to show that the CEP is evaluated at least annually?

☒ Yes ☐ No

GENERAL COMMENTS:

At the beginning of the visit, the team was concerned that the campus had insufficient data and information on two elements of its CEP: graduate satisfaction and employer satisfaction. Further there was insufficient analysis of the data that were provided and how these limited data were being used to improve educational processes. The team was informed that the surveys of graduates and their employers were conducted by ITT Headquarters (HQ) one year after completion of the students' programs and agreed that the returns were minimal. For example, in reviewing data from graduates from 2010 to 2012, the team found inadequate information on the numbers of surveys mailed, numbers returned, and what it is the data meant to continuous improvement objectives. There were 137 graduate exit interviews, with 7 returns

(~5 percent). The team also noted that the August 2012 CEP update indicated that there has been "inaccurate student contact information" and "weak long-term relationships with graduates...." The team was able to determine that 565 surveys had been mailed to employers during the time frame, with 42 returned (~7%). On the final day of the visit, the team was presented with copies of e-mails and a PowerPoint presentation (dated August 2012) that included descriptive information on the campus' plan to survey employers and graduates and to more closely align the survey process with ACICS requirements. Career development staff were instructed to contact all graduates and employers and stress that a survey was forthcoming and how important it is to complete the surveys and to "use those surveys to help us continue to make improvements." The campus director and a relatively new career services director have established additional strategies and activities to engage more robustly with program area advisory committees, graduates, and the employment community and document relevant feedback.

GENERAL COMMENTS:

The students in the School of Electronics Technology were very engaged and commented positively on their academic experience and their future job prospects as a result of the courses they had completed.

SUMMARY

The institution is not in compliance with the *Accreditation Criteria* in the following areas:

Citation # (in bold)	Summary Statement (followed by report page number)
Section 3-1-513(a) and Glossary	Course syllabi do not include, as appropriate, out-of-class work assignments that support the learning objectives for most courses (pp. 33, 34, 37, 38, 39, 42, 43, 44, 47, 48, 52, and 53).
Section 3-1-12(c)	There is insufficient use of community resources in the Digital Entertainment and Game Design program (p. 42).

RECOMMENDATIONS

The evaluation team offers the following recommendations for the institution's consideration (*These recommendations are not included in the report seen by the Council*):

A *system* for collecting and documenting data and information for elements of the CEP at the **campus** level is warranted, especially from graduates and employers, and then an annual analysis of the data collected and its meaning for program improvement.

Collect additional data on characteristics of the student population that might help to inform the instructional programs or, if already known or collected, integrate it into campus effectiveness planning. Such data might include prior education (e.g., high school graduation, post-secondary experience, GED, etc.), work experience, socio-economics status, family obligations, etc.

The team noted that several programs lacked significant contact with the "real-world" of practice and recommends more robust involvement with the business and industry community through use of increased community-based resources. This recommendation also came from students in some programs who requested more real-world experiences and contact with professionals.

The team also recommends that various programs' capstone projects be an actual work- or community-based project conducted by a student or teams of students to provide for a more rigorous measure of outcomes in the real-world of practice rather than a simulated project.

INTRODUCTION

The Vanderschmidt School, the former name of the O'Hare Westwood Campus, was established in 1950 and was purchased by its present owners in 2001.

The overall population of the campus has dropped from 642 students in 2011 to 315 students today, due primarily to the continued legal scrutiny of the DuPage campus Criminal Justice program by the Illinois Attorney General and the Denver campus being placed on probationary status with the Colorado Commission on Higher Education. While this investigation is ongoing, the state of Illinois does not allow the campus to begin offering any new programs.

Two-thirds of the students are enrolled in bachelor's degree programs, the largest of which is Criminal Justice. The campus population is about evenly divided between male and female students.

The campus is no longer accepting enrollments in the bachelor's degree program in Graphic Arts--Animation or in the bachelor's degree program in Information and Network Technologies--Network Management. The one student in the associate's degree program in Computer-Aided Design (CAD) will transfer to another campus at the end of the current quarter, and that program will no longer accept enrollments. Thus, the associate's degree in CAD was not evaluated by the on-site team.

☒ Yes ☐ No ☐ Not Applicable (new additional location only)

(e) Student learning outcomes.

☒ Yes ☐ No

1.11 Define the student learning outcomes used by the campus and how these outcomes are being assessed.

The campus uses grade distributions as the sole measure of documenting student learning outcomes. These outcomes are being assessed through CampusVue.

1.12 Are the following identified and described in the CEP?

(d) An analysis and summary of the data collected and an explanation of how the data will be used to improve the educational processes.

☐ Yes ☒ No ☐ Not Applicable

If *No* for any applicable item, insert the section number in parentheses and explain:

(Section 3-1-111): The campus CEP does not meet Council requirements in the following areas:

1. Graduate satisfaction is measured during the student's last quarter of enrollment--when they are not yet graduates.

2. Employer satisfaction is based on so few responses (9 responses out of 168 employers surveyed) that the data received could not be considered as representative of all 168 employers.

3. Grade distributions are the sole measure of student learning outcomes, but the data reported is not adequate to document learning outcomes in all areas. Further, the data is not adequately analyzed. For example, of the 33 students enrolled in HIST420, none received a grade of F. On the other hand, none of the 12 students enrolled in MKTG320 received an A. Such wide grading discrepancies should be investigated as a means of improving the educational processes. Students in some programs take certification exams (which the campus pays for); these results should be included in the CEP.

1.15 Describe the specific activities that the campus will undertake to meet these goals.

The campus has started a new initiative to pay more attention to placing Medical Assisting students in the most appropriate externship position, as a means of increasing the externship-to-hire rate. The campus is now hosting more career fairs; a recent

fair attracted 16 potential employers to campus. The campus has also started contacting students after their first absence to ensure that attendance does not become an issue.

1.16 Does the campus have documentation to show the following?

(a) That the CEP has been implemented.

☒ Yes ☐ No

(b) That specific activities listed in the plan have been completed.

☒ Yes ☐ No

(c) That periodic progress reports have been completed.

☒ Yes ☐ No

Mr. Favia holds a bachelor's degree in Political Science and a master's degree in Business Administration from Dominican University. He also holds a certificate in Paralegal Studies from Roosevelt University. He began his career at Westwood in the admissions office in 2009. Before coming to Westwood O'Hare, Mr. Favia was an assistant manager at HSBC bank for four years. He is qualified to oversee the admissions office.

4.11 How is the team able to verify that the recruiting process for new students is ethical and compatible with the educational objectives for the campus?

The recruiting process at the Westwood O'Hare location is ethical and compatible with the educational objectives for the campus. The team interviewed current students and admissions personnel, reviewed the Better Business Bureau (BBB) website, and reviewed current advertising materials. The students are positive about the admissions process, the admissions representatives are knowledgeable about Westwood's programs and policies, and Westwood's headquarters utilizes a third-party who sends mystery shoppers to all Westwood campuses twice a year.

However, it should be noted the BBB has posted an alert for Westwood because of an Illinois government action. On January 18, 2012, the Illinois Attorney General filed a Complaint for Injunctive and Other Relief against this business in Cook County Circuit Court. Charges filed allege the business made a variety of false representations and promises regarding the value and transferability of its coursework and degrees for students enrolled in their Criminal Justice program. The alleged misrepresentations constitute violations of the Illinois Consumer Fraud and Deceptive Business Practices Act. As of the visit, the matter is pending. (See more at: <http://www.bbb.org/denver/business-reviews/schools-business-and-vocational/westwood-college-in-denver-co-4694#govtaction>.)

The ACICS office is aware of this government action and is monitoring it closely.

If *No*, insert the section number in parentheses and explain:

(Section 3-1-513(a) and Glossary): Independent study contracts do not include appropriate evaluative criteria that would accurately address the unique circumstances of the course delivery. The contracts merely include the regular course syllabus without any modifications to the assessment of learning. For example, all Criminal Justice courses include class attendance and participation as part of the evaluation. Crime Scene Investigation, currently being offered via independent study, also indicates that the student had to "participate in the classroom activity." However, these activities are not appropriate for an independent study course.

The following courses are currently being delivered through independent study:

- Women and Criminal Justice
- Crisis Intervention
- Special Topics in Criminal Justice

Campus staff and IT faculty members verified the use of various community resources to enrich the IT programs including guest speakers, field trips, a program advisory committee, and extracurricular activities with local community organizations. During classroom visits, Systems Security and Information and Network Technologies students described how they work outside of regularly scheduled class hours on the Fisher House project by providing help for military families, and doing voluntary computer and network maintenance for veteran's families and other people in the community. The students expressed pride and satisfaction in taking part in these activities and noted how much this has helped them gain more hands-on skills in addition to providing opportunities for applying their classroom knowledge to real-world experiences. The team reviewed e-mails and other documentation that verified several guest speakers have given IT topic presentations, and that students have participated in several field trips including visits to Microsoft launching events, Southside Security Hackers meetings, Fisher House, and the Chief Information Security Officer (CISO) 2012 conference at the Marriott Chicago in December 2012.

Summary of Citations

The institution is not in compliance with the *Accreditation Criteria* in the following areas:

#	Criteria	Summary
1.	Section 3-1-111	The Campus Effectiveness Plan (CEP) does not meet Council's standards (page 4).
2.	Section 3-1-412(d)	Three admissions representatives do not have appropriate titles (page 9).
3.	Section 3-1-441(c)	Follow-up studies on graduates are not conducted at specific measuring points following placement (page 13).
4.	Section 3-1-513(a) & Glossary	Independent study contracts do not include appropriate evaluative criteria in some programs (pages 25, 29, 33, and 40).

RECOMMENDATIONS

The evaluation team offers the following recommendations for the institution's consideration (*These recommendations are not included in the report seen by the Council*):

- More guest speakers should be utilized in the Accounting and Marketing programs.
- Some lab activities, particularly in the Systems Security program, require system admin access or certain user permissions in order to complete activities. While IT students are provided the opportunity to perform these lab activities using virtual machines and platforms, it would be beneficial for them to have admin access to some designated equipment or be part of an Access Control List (ACL) that gives them more permissions than students from other programs. This would allow IT students to perform the lab activities that require installations and configurations on real machines and experience real-world environments.
- Faculty development plans should differentiate more clearly between in-service training (which is designed to increase teaching skills) and professional-growth activities (which are designed to enhance the faculty member's subject-matter expertise).

INTRODUCTION

The ITT Technical Institute in San Antonio is part of a nationwide system of over 140 campuses in 38 states owned and operated by ITT/ESI, which is headquartered in Carmel, Indiana. The campus, which opened its doors for classes in June 2012, currently offers 3 academic associate's degree programs and anticipates expanding its offerings at both the associate's and bachelor's degree levels. The campus, located in the heart of the Alamo country, mainly attracts students from the San Antonio metropolitan area, with a population of over 1.5 million, and includes a large contingent of students (30%) from 3 major military bases in the area. In addition, the student population, consisting of mainly adult and evening learners, is representative of the local community demographics to include the following breakdown: by race, 41.7% Hispanic, 26.7% Caucasian, 13.3% African-American, 3.3% Asian-American, and 15% undisclosed; and by gender, 85% male and 15% female.

1.11 Define the student learning outcomes used by the campus and how these outcomes are being assessed.

The campus measures student learning outcomes using four measures: capstone courses, capstone assessment data, student engagement, and student success. For the first, capstone courses, many of the ITT Technical Institute programs utilize a capstone course to solidify the student's overall learning process and to determine the level of the student's understanding of the program objectives. Beginning in December 2013, when the first capstone courses are offered, the campus dean will start tracking class average grades for capstone courses and develop a history of data that can be used to analyze student learning outcomes. For the second measure, or capstone assessment data, the campus assesses specific learning outcomes through the application of an assessment rubric (communication skills, teamwork, critical thinking, et al.). As assessment data becomes available after the first capstone classes are offered, the faculty will begin reviewing proficiency levels achieved by graduates and take measures for continuous learning outcomes improvement. Thirdly, the campus measures student engagement by taking into account student attendance and the ability of the student to complete program courses. Data is currently being collected by the dean to measure student engagement. Lastly, student success is measured by dividing the number of passing students by the number of student attempts. The number of students starting and passing a course is an indicator of the potential to achieve student learning outcomes. Data is currently being collected by the dean to measure student success.

Loan repayment obligations are reinforced each time a student has a conversation with financial aid and reviewed during a student's repackaging process. Individual, in-person exit counseling is completed by the campus when the student graduates. When a student is no longer in attendance and has not met in-person with the financial aid department, exit counseling information is sent to the student by the campus and the institution. Additional resources are made available to the student when the student moves into repayment status.

The students enrolled in the four programs included in this section of the report participated in many documented field trips in 2011 and 2012. One of these field trips was to a public meeting for the West Grove Park master plan. This project was important because of its similarity to their capstone project. Other field trips focused on sharing ideas, methods, and practices with local Revit program users and fostering local peer contacts. Construction sites were also objects of observation and included the Marriott Hotel extension and the Little Hunting Park pool, both in the area.

There is evidence of the use of several guest speakers to enhance instruction. One of the most relevant guest speakers was Mr. James Clark from MTFA Architecture and President of the Virginia Society of American Architects. He is part of the Washington Monument Competition Committee. There were also several discussion panels that focused on trends in architecture, construction, design, and the industry. In addition, students in the Visual Communications program learned about job opportunities, networking, and associations related to their career by attending a series of talks given by professionals from companies like Imagine Design DC.

Extracurricular activities such as the “design charity,” program clubs, high school visits, contests, and movies are part of the social integration used on the campus to enrich the curriculum.

Students in the engineering programs go on field trips to the offices/facilities of local businesses and manufacturing/production facilities located in the Washington, DC metropolitan region. These field trips provide students opportunities for exposure to the real-world work environment and could lead to internship arrangements for some students. During the current academic year, field trips were arranged to the National Electronics Museum, National Air and Space Museum, and FOSE Conference in Washington, DC. Every year, a few guest speakers come to the campus to address students in the School of Electronics Technology. These presentations are beneficial for students and faculty in the context of new learning and professional networking. Among the guest speakers used during the last academic year were Mr. Allen Nebb, assistant general superintendent in the Washington Metropolitan Area Transit Authority, and Mr. Edward Anderson, partner in the Computer Sciences Corporation. GENERAL COMMENTS:

The campus facilities available for the academic programs in the School of Electronics Technology are impressive. The two electronic laboratories are well equipped and laid out properly for efficient utilization of the equipment by students. The other computer and telecommunication resources for students are more than adequate. There is an active electronics club sponsored by the chair of the school. Members of this club are encouraged to utilize the laboratory facilities at the campus, and some members act as mentors/tutors for students who can benefit from these support activities. Students interviewed during the site visit indicated that the quality of instruction is good and praised the instructors and administrators for being accessible and responsive to their needs. The program advisory committee (PAC) for the School of Electronics Technology provides beneficial advice to the administration concerning the currency and employment market relevance of the academic programs.

INTRODUCTION

Westwood College Online is one of sixteen campuses located in Colorado, Illinois, Georgia, and Virginia. Westwood College is a wholly-owned entity of Wesgray Corporation which is wholly-owned subsidiary of Westwood College, Inc.

The Westwood College Online campus was approved in August 2008 as an additional location of Westwood College Online, Los Angeles, California and the first term was in May 2009. The Online campus offers its courses and programs from Broomfield, Colorado. This campus is located in a business district.

Based on the most recent data available, the Campus Effectiveness Plan reports the student population is 53% female and 47% male; and the average age is 33.34 years. Of those reporting it on the survey form provided when the most recent data was collected, the ethnicity of the student population was 21% African American, 46% Caucasian, 3% Hispanic, 1% Native American, 2% Asian/Pacific Islands, and 27% of the students not reporting their ethnicity.

It is important to note that all Westwood College campuses converted to a curriculum called the Career Advantage Program (CAP) in 2012. All programs were reviewed by system curriculum committees and modified to be more efficiently delivered. A major change resulting from the implementation of the CAP curriculum is that most courses were granting 3.5 quarter credits to 4.5 quarter credits. The CAP curriculum model is an effort to ensure Westwood College is offering the most updated programs as possible to better prepare their graduates for employment. In addition, this model closely resembles the standard semester credit model and allows for the possibility of easier transferability to institutions external to Westwood College. Due to this revision the following bachelor programs are in teach out mode with expected close out October 2014. There are 7 bachelor's degree programs; Management (1 student), Computer Network Management (1 student), Criminal Justice (2 students), Game Art (2 students), Information Systems Security (1 student), Software Development (1 student), and Visual Communications (1 student).

Associate in Medical Office Management-0

If No, insert "Section 3-1-303(a)" in parentheses and explain:

(Section 3-1-303(a)): Although there was one successful contact for graduate from the Medical Office Management program, the student was not placed in field as attested by the institution. Following the ACICS verification call script, the student states that she is a freelance home health aid that does not work for any agency but takes on patients through word of mouth, family, and friends. She also stated that she had been doing this for many years before obtaining her degree and resumed this position post graduation in September 2013. Her primary skills include companionship, cooking, light housekeeping, transportation to physician appointments, and help with activities of daily living (ADL's). The student stated that she does not feel that the training she received from Westwood's Medical Office Management degree has helped her prepare for this position. She previously obtained her bachelor of Healthcare Management from Westwood. Upon team review, there is not a match for job description, title, or skills utilized allowing for an in-field placement of the graduate. The Medical Office Management program specifically states in the catalogue, and through review of curriculum offered, that this degree is designed to manage medical office operations and to teach and train students the skills necessary to work with doctors and their patients in a medical office environment. Core curriculum classes include accounting, medical insurance and administrative procedures, principles of human resource management, and advanced medical office management, to name a few. The core curriculum involves over 70% management related topics and does not relate the skill set to afford a placement as in-field in regards to a home health aid position.

He has held various executive level positions throughout the past 10 years at Westwood including campus president and regional vice president. His position is 100% administrative.

Mr. Pagano is supported by Dr. Aimee Callahan, academic dean, who oversees the online curriculum in collaboration with the academic affairs curriculum design team members, program chairs, students, faculty, and academic operations managers. Dr. Callahan has a doctoral degree in Adult Learning and Postsecondary Education; two master's degrees, one in Adult Learning and Postsecondary Education and one in Communication & Journalism; and a bachelor's degree in Theatre and Dance; all of her credentials are from the University Wyoming.

The course/program content and delivery format is developed by its parent company, Alta Colleges, Inc., central administration curriculum team whose members include master's prepared personnel with over 40 years of combined experience in instructional design including 25 years in online development. The team collaborates with subject-matter experts from each content area. Ultimately, WCO administrators and faculty, review, give feedback, and make recommendations to ensure curricula are aligned with and meeting WCO students' expectations and fulfilling its campus mission. A memorandum documents this system.

H.07 If the institution has a plan, does it include the following:

(a) Rationale?

☒ Yes ☐ No

(b) Resources?

☒ Yes ☐ No

(c) Course/program objectives?

☒ Yes ☐ No

H.09 Is the delivery method appropriate for students and the curriculum?

- ☒ Yes ☐ No

H.10 Are admission requirements for distance education courses/programs identified by the institution?

- ☐ Yes ☐ No ☒ Not Applicable (no additional admissions requirements)

- ☒ Yes ☐ No

H.16 Does the institution provide an on-line orientation program to familiarize students with the equipment and resources used in the distance education activities?

- ☒ Yes ☐ No

H.17 Do syllabi identify course learning objectives and does each course learning objective support one or more program learning outcomes?

- ☒ Yes ☐ No

H.18 Describe how the courses provide opportunities for interaction between faculty and students.

The following strategies are used to facilitate online faculty and student interaction: an "Announcements" feature for all courses that provides directives through instructor postings; a threaded discussion forum in which students are required to post statements and peer responses for which they receive instructor feedback; and an assignment feature with a grade book link that provides a dialogue between an instructor and individual student. In addition, students are encouraged to contact their instructors by email or telephone if an individual or personal response is needed; the instructor's contact information is accessible through the course's home page. Access to and observation of scheduled online courses and 98% of the responses to a student questionnaire given while the team was on-site verify these interactions.

Are these opportunities sufficient and appropriate?

- ☒ Yes ☐ No

H.19 Describe how the courses provide opportunities for interaction among students.

Students interact with peers through threaded discussion forums that require direct responses to peers' postings; group project assignments that require dialogue among group members using email, telecommunications, or scheduled face-to-face meetings if/as appropriate; and an email utility feature in each course that provides the ability to send group or individuals emails to peers. Access to and observation of scheduled online courses and 97% of the responses to a student questionnaire given while the team was on-site verify these interactions.

Are these opportunities sufficient and appropriate?

☒ Yes ☐ No

☒ Yes ☐ No

H.21 Is the curriculum administered in a way that maintains security of access?

☒ Yes ☐ No

H.22 Describe the student identity verification method used by the campus.

Students are assigned access to MyPath through the SMART student information system. When applicants are accepted and become WCO students they are assigned their own login information which allows them access to MyPath and their WCO email. This login verifies the student is "the student who enrolled at the campus." Page 71 of the 2014 Academic Catalog Westwood College-Online, Volume 6, NO. 1 explicitly outlines the "Prohibited Use of Information Technology Resources" for students; students are prompted to review this outline during the online orientation.

Is this method adequate?

☒ Yes ☐ No

H.23 Does the institution employ academically and experientially credentialed faculty to teach online courses?

☒ Yes ☐ No

H.24 Describe the institutions learning management system.

The Blackboard learning management system is utilized to deliver WCO online courses. The campus refers to Blackboard as MyPath. MyPath is an institutional shell with a home page that enables students, faculty, and staff to connect to Blackboard, the library, tutoring services, student resources, career services and other information and support through a single log in.

H.25 Are the faculty properly trained to utilize the institutions learning management system for purposes of instruction, communication, and assessment?

☒ Yes ☐ No

☒ Yes ☐ No

(b) Facilitation of interaction among students?

☒ Yes ☐ No

(c) Facilitation of interaction with curriculum content?

☒ Yes ☐ No

H.28 Is there evidence that appropriate faculty development plans have been developed and implemented on an annual basis for those faculty members teaching online courses, including documentation to support completed activities listed on the plans?

☒ Yes ☐ No

H.29 Does the institution have adequate financial resources to support the courses/program(s)?

☒ Yes ☐ No

H.30 Does the institution demonstrate that students taking online courses have access to the same or e equivalent library resources and support as on ground students?

☒ Yes ☐ No

H.31 How does the institution orient online students to its learning management system, resources, and support services (including technical support)?

Students are required to complete an online orientation prior to beginning coursework. The orientation is provided in a self-paced, online format accessible through MyPath. Students participate in activities which familiarize them with learning platform navigation, technical support access, student resource information and access, and student success lessons. The virtual workshop requires students to complete quizzes and graded assignments throughout the process. In response to a questionnaire given by the team while on-site, 92% of the student respondents confirmed they had participated in the orientation. A majority of students confirmed it helped them to navigate the system.

Is this orientation adequate?

☒ Yes ☐ No

GENERAL COMMENTS:

To obtain a robust sample of student and faculty perspectives who are engaged in an exclusively online, off-site environment, WCO students and faculty were invited via email to participate in an anonymous survey through SurveyMonkey®. Within a 24-hour period while the team was on-site, nearly 500 students and over 100 faculty members responded. Student responses to queries about orientation, reviewing syllabi and objectives, interactions with faculty and peers, and access to student services, resulted in a 97% positive response rating. Faculty member responses to queries about interactions with students, teaching approaches, administrative support, and use of community resources, resulted in a 98% positive response rating. Questions were objective with “yes/no” responses, and space was provided for brief comments. The data collected was deleted immediately following a review of the analyses generated by the site and the comments. The reliability of the surveys is comparable to on-site classroom visits, faculty meetings, and individual interviews. The validity of the responses is no greater than providing a sample of student and faculty perspectives about their WCO experiences.

SUMMARY

The institution is not in compliance with the *Accreditation Criteria* in the following areas:

<u>Number</u>	<u>Citation</u>	<u>Summary Statement</u>
1	(3-1-303(a))	The school does not keep adequate records as it relates to accreditation and licensure, or the CAR especially regarding placement, attestation, and waiver verification. (Pages 9, 29, 42, and 50).
2	(3-1-303(e))	The grading system is not fully explained on the transcript and is not consistent with that appearing in the catalog. (Page 9).
3	(3-1-701 and Appendix C)	The catalog does not contain an explanation of the grading system that is consistent with the one that appears on the transcript. The grading system that starts on page 49 of the catalog gives explanations of the following designations that are not listed on the transcript to include proficiency (PR), transfer (TR), pass (P)/ no pass (N), incomplete (I), withdraw (W), and repeated course (R). Additionally, on page 153 of the catalog, other grades listed are audit (AU) and equivalent (EQ), although neither are explained in the catalog. On the transcript, an additional “other grade” of withdraw pass/no pass (WPN) has been stated. There are statements on the transcript that attempt to explain repeated courses and withdraw and transfer, but the statements do not match the catalog. (Page 20).

RECOMMENDATIONS

The evaluation team offers the following recommendations for the institution’s consideration (*These recommendations are not included in the report seen by the Council*):

It is the recommendation of the team, that multiple addenda be combined into one document with appropriate date headings for changes, to avoid accidental exclusion of separate sections.

The campus should renew its lapsed subscription to the EBSCO Master Search database to enhance student research resources in the undergraduate and graduate business programs.

Faculty suggested an interview process for students coming into the Computer Aided Design/Architectural Drafting program. This approach does not need to be stringent, such as a portfolio requirement but more of a casual conversation an inquiry into the individual's ideas on the industry and what is involved.

INTRODUCTION

ITT Technical Institute - Austin campus is one in a network of 125 ITT Technical Institute co-educational, nondenominational, private, postsecondary educational institutions operated by ITT/ESI. It hosts a large, modern facility that has recently undergone renovations that have included WiFi access throughout the campus, new electronics, and upgraded offices and classrooms. The campus serves the Austin, Texas, metropolitan area which is experiencing a resurgence of employment opportunities in the private sector but severe cutbacks to public education. The public education cutbacks have given the campus an opportunity to access a qualified pool of instructors for their programs. The high employment rates have forced the campus to modify course scheduling to offer a primarily robust evening program for their student population since most students now work during the daytime hours. Currently, 85% of all courses offered are scheduled in the evening.

It was noted that this campus has experienced a reduction in census in recent years due to the opening of two new campuses nearby. The new Waco, Texas, campus has resulted in the loss of the Killeen, Texas, market which has a large military population. Another ITT campus has been opened east San Antonio, Texas, which has taken the San Marcos, Texas, population from the Austin campus. The campus currently serves 433 full time and 88 part time students and offers more than 20 academic associate's and bachelor's degree programs in a variety of technical fields.

GENERAL COMMENTS:

The team commends the innovative programs and obvious dedication of the career services staff. Career services stocks neckties and has local business contacts which donate business suits and other clothing for underprivileged students so they will be able to present a professional appearance for their first job interview. The team finds this to be unique and quite a valuable resource to the students.

The team finds that the IT faculty are very well-liked by the students. Both day and night students recognized full-time and adjunct faculty by name and commended Mr. Michael Atkinson, Mr. Bruce Roberts, and Mr. Cornelius Chopin for their willingness to stay after class for one-on-one tutoring and their strong subject knowledge in the area of networking.

GENERAL COMMENTS:

While interviewing ten students in the school of Drafting and Design, the students noted that they are satisfied with both their classes and their instructors. Several comments were made about the program chair and instructors regarding the high level of dedication and helpfulness. Students are impressed with the instructors' willingness to help and hands on approach. The level of satisfaction students possess in their core classes is very favorable.

It was mentioned that program chairs will soon be required to teach four classes per quarter. While the program chair is currently in compliance with his current teaching load of two classes, it is noted that if a load of four classes is required in the future, the program chair's teaching load will be excessive in light of their administrative duties.

In speaking with the drafting and design faculty members, they were incredibly satisfied with the program chair's dedication to them as faculty members and as instructors. Faculty members feel very supported by his leadership, and showed great admiration for his dedication and professional experience.

SUMMARY

The institution is not in compliance with the *Accreditation Criteria* in the following areas:

Citation #	Summary Statement
2-2-503	The campus does not currently have a written policy that accurately reflects the U.S. Department of Education's definition for credit hour programs that includes conversion ratios (pp. 17, 31, 36, 41, 45).
3-1-303(a)	The team could not verify the 2011 CAR (pp. 40, 49).
3-1-511	Not all program administrators have the education or experiential qualifications and adequate time and resources to administer their academic programs (pp. 33, 37).
3-1-513(a) and Glossary	Course syllabi do not identify out-of-class work assignments that support the learning objectives for the course or the minimum amount of time a student is expected to spend on completion of out-of-class work assignments (pp. 30, 31, 35, 36, 39, 41, 44, 45, 49, 50).
3-1-531(d)	There is no evidence that the campus complies with applicable copyright laws in the use of instructional materials (p. 21).
3-1-543	There is no documented evidence of the implementation of faculty development plans (p. 21).
3-1-541	Not all transcripts from credentials earned outside the United States have been evaluated by a member of AICE or NACES (p. 21).
3-5-302	Not all instructors have qualifications that meet Council standards (p. 46).
3-1-701 and Appendix C	The catalog does not fully disclose advance standing requirements (p. 25).

RECOMMENDATIONS

The evaluation team offers the following recommendations for the institution's consideration:

1. It is recommended that summary statistics in the CEP be reported by program. The summary and analysis of data collected in the CEP are not broken down by program, nor are the number of responses given from which the summaries are derived. Specifically, on pages 20, 22, and 33 in the CEP, data are presented as overall percentages without reference to the number of respondents or what program the responses come from. Without this information the validity and reliability from which to make strategic decisions cannot be determined at the program level.
2. The grievance policy is located in the "Communications" section on page 8 of the employee handbook under the subheading "Open Door Policy." It is recommended that this policy be more transparent and accessible by changing the subheading title to "Grievance Policy" and include this policy in both the employee handbook as well as the faculty handbook.
3. A review of the faculty handbook contents should be addressed to ensure that all faculty members clearly understand the policies and procedures in place.
4. The campus should designate a subject matter expert in the area of Information Security to advise students on curricular and career issues as well as assist the designated program administrator in this highly specialized field.

INTRODUCTION

Please use this page to give a narrative introduction of the campus.

Provide a brief history of the campus, a description of its geographic service area, and a description of the composition of the student population.

Westwood College Online is one of sixteen campuses located in Colorado, Illinois, Georgia, and Virginia. Westwood College is a wholly-owned entity of Wesgray Corporation which is wholly-owned subsidiary of Westwood College, Inc.

The Westwood College Online campus was approved in August 2008 as an additional location of Westwood College Online, Los Angeles

California and the first term was in May 2009. The Online campus offers its courses and programs from Broomfield, Colorado. This campus is located in a business district.

At the time of the visit there were a total of 1662 students enrolled online in 1 non-degree course offering (student can take a class and not major) 3 students are enrolled, 1 occupational associates degree with 48 students, 8 academic associates degree programs with students enrolled, twenty-six bachelor's degree programs with students enrolled, and 1 master's degree program with 69 students enrolled.

Based on the most recent data available, the Campus Effectiveness Plan reports the student population is 53% female and 47% male; and the average age is 33.34 years. Of those reporting it on the survey form provided when the most recent data was collected, the ethnicity of the student population was 21% African American, 46% Caucasian, 3% Hispanic, 1% Native American, 2% Asian/Pacific Islands, and 27% of the students not reporting their ethnicity.

It is important to note that all Westwood College campuses converted to a curriculum called the Career Advantage Program (CAP) in 2012. All programs were reviewed by system curriculum committees and modified to be more efficiently delivered. A major change resulting from the implementation of the CAP curriculum is that most courses were granting 3.5 quarter credits to 4.5 quarter credits. The CAP curriculum model is an effort to ensure Westwood College is offering the most updated programs as possible to better prepare their graduates for employment. In addition this model closely resembles the standard semester credit model and allows for the possibility of easier transferability to institutions external to Westwood College. Due to this revision the following bachelor programs are in teach out mode with expected close out October 2014. There are 7 bachelor's degree programs; Management (1 student), Computer Network Management (1 student), Criminal Justice (2 students), Game Art (2 students), Information Systems Security (1 student), Software Development (1 student), Visual Communications (1 student), and Visual Communications (1 student).

Associate in Medical Office Management-1

If No, insert "Section 3-1-303(a)" in parentheses and explain:

(Section 3-1-303(a)): Although there was one successful call confirming employment of the graduate from the Medical Office Management program, the student was not placed in field as attested by the institution. Following the ACICS verification call script, the student states that she is a freelance home health aid that does not work for any agency but takes on patients through word of mouth, family, and friends. She also stated that she had been doing this for many years before obtaining her degree and resumed this position post graduation in September 2013. Her primary skills include companionship, cooking, light housekeeping, transportation to physician appointments, and help with activities of daily living (ADL's). The student stated that she does not feel that the training she received from Westwood's Medical Office Management degree has helped her prepare for this position. She previously obtained her bachelor of Healthcare Management from Westwood. Upon team review, there is not a match for job description, title, or skills utilized allowing for an in-field placement of the graduate. The Medical Office Management program specifically states in the catalogue, and through review of curriculum offered, that this degree is designed to manage medical office operations and to teach and train students the skills necessary to work with doctors and their patients in a medical office environment. Core curriculum classes include accounting, medical insurance and administrative procedures, principles of human resource management, and advanced medical office management, to name a few. The core curriculum involves over 70% management related topics and does not relate the skill set to afford a placement as in-field in regards to a home health aid position.

How many of the successful contacts confirmed the employment of the graduate as reported on the CAR? Please explain any discrepancy between the number of successful contacts and confirmations.

There were 8 successful calls.

If *No*, insert "Section 3-1-303(a)" in parentheses and explain:**(Section 3-1-303(a):** The team was not able to verify the backup documentation to support the placement rate, in the field of study for the program as reported during phone verification of job placements.

According to the ACICS verification call script, graduate Alfred Segundo confirmed his position as Store Clerk for JD Machine Tech and his intent of continuity is indefinite. He stated that he is not using any of his field of study skills, which is a bachelor's degree in Criminal Justice, in his current position. Mr. Segundo stated that he has maintained this employment, six months prior to graduation from Westwood College Online.

According to the ACICS verification call script, graduate Rebecca Thornton's position as Youth Advocate was confirmed by Human Resources as a support advocate, similar to a big sister for the youth in the program and the intent of continuity is indefinite. HR stated that Rebecca more than likely was not using any of her field of study skills, which is a bachelor's degree in Criminal Justice, in her current position.

Rebecca does not endorse any skills used within her field of study, in this call. She just works with kids on probation, so the employer could be a drop-in resource center mandated by the juvi courts for juveniles for AA or NA meetings or group counseling sessions with or without parents. I heard in the background that she, Rebecca was signing kids in and out from a counter/desk location. A BS in CJ is not needed for such types of placement.

☒ Yes ☐ No
- H.17 Do syllabi identify course learning objectives and does each course learning objective support one or more program learning outcomes?
☒ Yes ☐ No
- H.18 Describe how the courses provide opportunities for interaction between faculty and students.
The following strategies are used to facilitate online faculty and student interaction: an "Announcements" feature for all courses that provides directives through instructor postings; a threaded discussion forum in which students are required to post statements and peer responses for which they receive instructor feedback; and an assignment feature with a grade book link that provides a dialogue between an instructor and individual student. In addition, students are encouraged to contact their instructors by email or telephone if an individual or personal response is needed; the instructor's contact information is accessible through the course's home page. Access to and observation of scheduled online courses and 98% of the responses to a student questionnaire given while the team was on-site verify these interactions.

Are these opportunities sufficient and appropriate?
☒ Yes ☐ No
- H.19 Describe how the courses provide opportunities for interaction among students.
Students interact with peers through threaded discussion forums that require direct responses to peers' postings; group project assignments that require dialogue among group members using email, telecommunications, or scheduled face-to-face meetings if/as appropriate; and an email utility feature in each course that provides the ability to send group or individuals emails to peers. Access to and observation of scheduled online courses and 97% of the responses to a student questionnaire given while the team was on-site verify these interactions.

Are these opportunities sufficient and appropriate?

- H.22 Describe the student identity verification method used by the campus.
Students are assigned access to MyPath through the SMART student information system. When applicants are accepted and become WCO students they are assigned their own login information which allows them access to MyPath and their WCO email. This login verifies the student is "the student who enrolled at the campus." Page 71 of the 2014 Academic Catalog Westwood College-Online, Volume 6, NO. 1 explicitly outlines the "Prohibited Use of Information Technology Resources" for students; students are prompted to review this outline during the online orientation.

Is this method adequate?
☒ Yes ☐ No
- H.23 Does the institution employ academically and experientially credentialed faculty to teach online courses?
☒ Yes ☐ No
- H.24 Describe the institutions learning management system.

The Blackboard learning management system is utilized to deliver WCO online courses. The campus refers to Blackboard as MyPath. MyPath is an institutional shell with a home page that enables students, faculty, and staff to connect to Blackboard, the library, tutoring services, student resources, career services and other information and support through a single log in.

☒ Yes ☐ No
- H.31 How does the institution orient online students to its learning management system, resources, and support services (including technical support)?
 Students are required to complete an online orientation prior to beginning coursework. The orientation is provided in a self-paced, online format accessible through MyPath. Students participate in activities which familiarize them with learning platform navigation, technical support access, student resource information and access, and student success lessons. The virtual workshop requires students to complete quizzes and graded assignments throughout the process. In response to a questionnaire given by the team while on-site, 92% of the student respondents confirmed they had participated in the orientation. A majority of students confirmed it helped them to navigate the system.
- Is this orientation adequate?

☒ Yes ☐ No

GENERAL COMMENTS:

To obtain a robust sample of student and faculty perspectives who are engaged in an exclusively online, off-site environment, WCO students and faculty were invited via email to participate in an anonymous survey through SurveyMonkey®. Within a 24-hour period while the team was on-site, nearly 500 students and over 100 faculty members responded. Student responses to queries about orientation, reviewing syllabi and objectives, interactions with faculty and peers, and access to student services, resulted in a 97% positive response rating. Faculty member responses to queries about interactions with students, teaching approaches, administrative support, and use of community resources, resulted in a 98% positive response rating. Questions were objective with "yes/no" responses, and space was provided for brief comments. The data collected was deleted immediately following a review of the analyses generated by the site and the comments. The reliability of the surveys is comparable to on-site classroom visits, faculty meetings, and individual interviews. The validity of the responses is no greater than providing a sample of student and faculty perspectives about their WCO experiences.

SUMMARY

The institution is not in compliance with the *Accreditation Criteria* in the following areas:

Number	Citation	Summary Statement
1	(3-1-303(a))	The school does not keep adequate records as it relates to accreditation and licensure, or the CAR especially regarding placement, attestation, and waiver verification. (Pages 9, 29, 42, and 50).
2	(3-1-303(e))	The grading system is not fully explained on the transcript and is not consistent with that appearing in the catalog. (Page 9).
3	(3-1-701 and Appendix C)	The catalog does not contain an explanation of the grading system that is consistent with the one that appears on the transcript. The grading system that starts on page 49 of the catalog gives explanations of the following designations that are not listed on the transcript to include proficiency (PR), transfer (TR), pass (P)/ no pass (N), incomplete (I), withdraw (W), and repeated course (R). Additionally, on page 153 of the catalog, other grades listed are

		audit (AU) and equivalent (EQ), although neither are explained in the catalog. On the transcript, an additional "other grade" of withdraw pass/no pass (WPN) has been stated. There are statements on the transcript that attempt to explain repeated courses and withdraw and transfer, but the statements do not match the catalog. (Page 20).

Note: The citation number should be in bold. The summary statement should be followed by the report page number in parenthesis.

RECOMMENDATIONS

The evaluation team offers the following recommendations for the institution's consideration *(These recommendations are not included in the report seen by the Council)*:

It is the recommendation of the team, that multiple addenda be combined into one document with appropriate date headings for changes, to avoid accidental exclusion of separate sections.

The campus should renew its lapsed subscription to the EBSCO Master Search database to enhance student research resources in the undergraduate and graduate business programs.

Faculty suggested an interview process for students coming into the Computer Aided Design/Architectural Drafting program. This approach does not need to be stringent, such as a portfolio requirement but more of a casual conversation an inquiry into the individual's ideas on the industry and what is involved.

INTRODUCTION

Please use this page to give a narrative introduction of the campus.

Provide a brief history of the campus, a description of its geographic service area, and a description of the composition of the student population.

Westwood College Online is one of sixteen campuses located in Colorado, Illinois, Georgia, and Virginia. Westwood College is a wholly-owned entity of Wesgray Corporation which is wholly-owned subsidiary of Westwood College, Inc.

The Westwood College Online campus was approved in August 2008 as an additional location of Westwood College Online, Los Angeles

California and the first term was in May 2009. The Online campus offers its courses and programs from Broomfield, Colorado. This campus is located in a business district.

At the time of the visit there were a total of 1662 students enrolled online in 1 non-degree course offering (student can take a class and not major) 3 students are enrolled, 1 occupational associates degree with 48 students, 8 academic associates degree programs with students enrolled, twenty-six bachelor's degree programs with students enrolled, and 1 master's degree program with 69 students enrolled.

Based on the most recent data available, the Campus Effectiveness Plan reports the student population is 53% female and 47% male; and the average age is 33.34 years. Of those reporting it on the survey form provided when the most recent data was collected, the ethnicity of the student population was 21% African American, 46% Caucasian, 3% Hispanic, 1% Native American, 2% Asian/Pacific Islands, and 27% of the students not reporting their ethnicity.

It is important to note that all Westwood College campuses converted to a curriculum called the Career Advantage Program (CAP) in 2012. All programs were reviewed by system curriculum committees and modified to be more efficiently delivered. A major change resulting from the implementation of the CAP curriculum is that most courses were granting 3.5 quarter credits to 4.5 quarter credits. The CAP curriculum model is an effort to ensure Westwood College is offering the most updated programs as possible to better prepare their graduates for employment. In addition this model closely resembles the standard semester credit model and allows for the possibility of easier transferability to institutions external to Westwood College. Due to this revision the following bachelor programs are in teach out mode with expected close out October 2014. There are 7 bachelor's degree programs; Management (1 student), Computer Network Management (1 student), Criminal Justice (2 students), Game Art (2 students), Information Systems Security (1 student), Software Development (1 student), Visual Communications (1 student), and Visual Communications (1 student).
